Typhoon Ravages Isle of Visayan, Philippines

MANY OF THE TOWNS ARE DEEPLY FLOODED

CROPS EITHER WASHED AWAY BY WATERS OR HOPELESSLY DESTROYED

NUMBER OF CASUALTIES IS UNKNOWN, RED CROSS RUSHING RELIEF TO AREA

Manila, P. I., Nov. 3.—(U.P.)—Telegraph reports received here stated that a typhoon followed by a devastating typhoon swept over the island of Visayan today causing damages estimated at 5,000,000 pesos.

Acting Governor Alejo Aquino of the Iloilo province reported the worst damage was done to the municipality of Passi.

The Red Cross was rushing food, blankets and medical supplies to the stricken area. Many were homeless.

The number of casualties was unknown. Many of the towns were flooded, while crops were either washed away by the waters or hopelessly destroyed.

Several points were so isolated that no word was forthcoming concerning the damage done. At other places communication was completely shut off. Telegraph and telephone wires were being swept away.

SONS OF MEXICAN PRESIDENT CRASH INTO SOCIETY

Kansas City, Mo., Nov. 3.—(U.P.)—Guillermo and Fernando Ortiz Rubio, sons of the Mexican president, crashed right into Kansas City social circles Sunday.

Hurrying to a tea given them by Charles M. Bush, prominent lawyer, the collegiate automobile of the Mexican brothers collided at a boulevard intersection with a brand new sedan driven by Lloyd A. Watson, a Kansas City lumberman, who was ignorant that he was a party to an international incident.

As Lumberman Watson innocently exchanged cards with the apologetic Ortiz Rubio, he growled "I hope you got money—your's going to pay for this" and then departed in his dented vehicle.

The young Mexicans cranked up their damaged motor car and sped belatedly to tea before returning to school at St. Benedict's college, Atchinson, Kansas.

STRAY DOG GIVES ALARM, SAVES TWO OF CHICAGO FAMILY

Chicago, Nov. 3.—(U.P.)—Three weeks ago a stray dog appeared at the home of Mr. and Mrs. George Randall. He was hungry. They fed him and kept him "temporarily" until they could find someone who would give him a permanent home.

Last night neighbors heard the dog howling. He continued so long they became alarmed and investigated. They found him on the porch, his paws on the window sill, looking into the house.

Inside they found Mrs. Randall dead. The flames of a gas burner had been extinguished accidentally and the fumes had killed her.

Randall and his daughter, Louise, 21, were found unconscious. Firemen revived them. They will recover. They will keep the dog now, permanently.

Demented When Fish Bone Lodges in Her Throat

St. Paul, Nov. 3.—(U.P.)—Afraid that a fish bone which had lodged in her throat might cause a cancer, Helen Bulena, 30, swallowed poison today and killed herself. Her brother, Richard, and her father, Frank Bulena, could ascribe no other motive to the woman's suicide than that she became demented from the bone which lodged in her throat two weeks ago.

MAYOR THOMPSON GAINING STRENGTH

Chicago, Nov. 3.—(U.P.)—Mayor William Hale Thompson was gaining strength steadily today although physicians said he was not yet completely out of danger from peritonitis which it was feared might follow his operation for appendicitis.

GREAT NORTHERN CAR LOADINGS DECREASE

St. Paul, Nov. 3.—(U.P.)—The Great Northern railway today reported 107,932 cars loaded during the month of October as compared with 132,335 for the same month last year.

SERIOUS RIOTING IN INDIA; 22 VILLAGERS INJURED

Bombay, India, Nov. 3.—(U.P.)—Serious rioting broke out today in a village near Belgium when violators of the forestry regulations resisted arrest. Twenty-two villagers were injured and six constables were taken to hospitals.

SEVERE AUTUMNAL STORM SWEEPING ENGLAND, IRELAND

DELAYS DEPARTURE OF FLYING BOAT DO-X AT FRIEDRICHSHAFEN

DAMAGE FROM HIGH WINDS, LIGHTNING, HAIL AND RAIN IS REPORTED

By ROBERT C. DOWSON (United Press Staff Correspondent)

London, Nov. 3.—A severe autumnal storm, which held the flying boat DO-X at Friedrichshafen, swept southern England and Ireland yesterday and continued with abated force today.

Damage from high winds, lightning, hail and rain was reported from a wide section of the country. Life boats on the south coast responded to numerous calls for aid from distressed ships, but no deaths were reported.

Passage across the English Channel by air was suspended and steamer service was delayed. The channel steamer Maid of Orleans was buffeted by heavy seas which smashed windows on the saloon deck. Four passengers and two members of the crew were injured.

A life boat put out from Benbridge, Isle of Wight, to stand by a Greek vessel in distress off Ventnor. The Deal tug Lady Beatty went to the assistance of a water-logged sailing barge and brought the craft safely into Ramsgate harbor. A seaplane moored in Portland harbor capsize and sank.

The storm was unusually severe in southwest Essex, automobiles were blown over in the streets and numerous pedestrians were knocked about by the gale. Houses were unroofed, and trees and telegraph poles uprooted.

The highest wind velocity was reported from Cardington, home of royal airship works, where it reached 82 miles an hour during a temporary gust.

Boulogne, France, Nov. 3.—Numerous fishing boats were reported missing in a storm in the English Channel today.

The cross channel steamer Isle of Thanet was damaged by huge waves and two of the crew were injured. The boat carried British and American passengers.

Rain and wind of hurricane violence were reported inland. Motor traffic was delayed on many roads where trees were blown down by the storm. The storm continued all morning with undiminished force.

The S. S. Kenilworth Castle, which reached Southampton, reported the heaviest storm in the channel in 20 years. A fireman, B. Bellinger, 30, who was to have been married upon his arrival, was swept overboard from the Union Castle liner and drowned.

Second class accommodations of the Kenilworth Castle were flooded to the level of the tables and many windows and hundreds of dishes were smashed. Two stewards were injured.

Cecil Watts, 28, was drowned when swept from the yacht Alanna, which a party was taking to Itchenor, near Chichester, from Gosport.

The Greek steamer Menelaos was in distress off the Isle of Wight and was towed to Spithead.

WILD MORGAN OIL GUSHER IS TAMED AT LAST

Oklahoma City, Nov. 3.—(U.P.)—The wild Morgan-Stout oil gusher, which for three days threatened Oklahoma City business and residential districts with destruction, was capped today and officials declared means of preventing recurrence of similar hazards.

The gusher, which sprayed 60,000 barrels of highly inflammable crude oil and 65,000,000 cubic feet of gas over a four mile area daily, was "pinched in" late yesterday when field workers succeeded in dropping a two-ton cone over its mouth.

Possibility that oil wells within or near the city limits may be condemned as fire hazards was admitted by C. R. O'Neal, state fire marshal.

Flames Spurt 300 Feet High, 1 Man Injured, Firemen Fight Kansas City Flames Four Hours

FIRE FOLLOWS EXPLOSION AT KANSAS CITY

BULK PLANT FIRE OF REFINERY MENACES A LARGE AREA

GASOLINE POURS INTO STORM SEWERS AND IS IGNITED

Kansas City, Mo., Nov. 3.—(U.P.)—One man was burned critically and several firemen suffered minor injuries today when a 20,000-gallon gasoline storage tank of the White Eagle Oil and Refining Company exploded, menacing a large area in Kansas City's oil and gasoline storage district. The fire was controlled only after nearly four hours of fighting, in which all available apparatus was used.

The flames, which leaped 300 feet into the air, were believed to have been caused when a truck, backing into a garage, broke a gasoline line, ignited the fuel oil tank.

Joseph Myers, White Eagle mechanic, who was thrown sixty feet by the force of the blast, was burned critically. Chief Dan Donovan of the fire department was burned on his face and hands as he directed his men, and several firemen suffered from burns and the effects of the heavy pall of smoke which hung over the entire city.

Kansas City, Mo., Nov. 3.—(U.P.)—Fire, following an explosion at the bulk plant of the White Eagle Oil and Refining Co. today was menacing a large area in the center of Kansas City's oil and gasoline storage district.

Firemen fought with all available apparatus against almost uncontrollable flames.

The explosion, occurring in a 20,000 gallon gasoline tank, sent flames shooting 300 feet into the air. Blazing rivulets of gasoline flowed in every direction spreading flames. Ten large gasoline tanks, near the one which exploded, were in the center of the menaced area and firemen momentarily expected they would explode.

Early reports indicated only one person had been injured seriously. Joe Myers, a mechanic for the White Eagle Company, who was standing near the tank when it exploded, was thrown nearly sixty feet and was terribly burned before aid could reach him. Physicians said his condition was critical.

As firemen fought the blaze with chemicals, water proving useless in a fight on an oil fire, residents of the neighborhood were evacuating their homes.

Dense clouds of smoke hung over the entire area, hindering the fire fighting activity, into which had been thrust every fire company in the city.

Gasoline poured into storm sewers in the district and ignited, flames shooting high from manholes and blowing the covers into the air.

Then a second major explosion was heard. Although firemen and observers could not see into the district clearly, it was believed another large tank had exploded, adding additional thousands of gallons of gasoline to the flames.

Squads of police were rushed to the scene. Lines were run around the endangered area.

Other officers rushed into homes of the neighborhood, ordering residents to evacuate at once. Ambulances were being held in readiness at the edge of the danger zone.

The explosion, which employees said occurred when a truck, backing from a garage, broke a gasoline line, came just as a passenger train on the M-K-T road was entering the yards and was passing the tanks. Passengers on the train had miraculous escapes as the force of the blast shattered windows of two Pullmans and a diner. Stewards and W. P. McConnell, Fort Worth, Texas, conductor, said no one was injured by flying glass.

"Dishes were blown out of the waiter's hands," the diner steward said, "and the train rocked so that I thought we were going to leave the rails."

McConnell said there was little doubt the train would have been completely wrecked if it had been traveling faster.

Smoke from the blaze caused semi-darkness throughout most of the city, although it was a cloudless day.

A string of tank cars, loaded with naphtha, were on a siding near the plant when the explosion occurred. A box car attached to the string caught fire, and a certain explosion was pre-

vented only when an engineer backed his switch engine into the heavy smoke to draw the cars to a point where employees of the Kansas City Terminal railroad could beat out the flames on the box car.

Danger in the fire zone was increased by a great number of live wires in the street, the intense heat having melted power lines.

The first casualty among the fire-fighters occurred when Chief Dan Donovan, directing the work at close quarters, was burned on the face and hands. He was given emergency treatment and again took his position to direct his men.

A dozen oil companies have storage plants in the threatened area.

JAPANESE SHIP SEIYO MARU BATTLES SEAS

FREIGHTER DRIFTS HELPLESSLY WITH HER RUDDER BROKEN

40 MEN ABOARD AS SHE WALLS OFF COAST OF ALEUTIAN ISLANDS

San Francisco, Nov. 3.—(U.P.)—Drifting helplessly, her rudder broken, the Japanese freighter Seiyo Maru battled heavy seas today.

Forty men were aboard the vessel reported off the coast of the Aleutian Islands. While seamen frantically attempted to keep the boat afloat, the California, steaming from San Francisco, hurried to the rescue. According to the Dollar Steamship Company, which owns the boat, it was supposed to be 1,000 miles off the coast of Vancouver.

The cargo of the Seiyo Maru had shifted, causing it to list dangerously. The inability of the Japanese operative to understand English prevented the rescue ships from learning by radio exactly how many were aboard the stricken vessel.

The first call for help was sent shortly after noon. Later the Seiyo Maru advised that it had lost its rudder and was drifting helplessly.

GENE HOWE AND MARY GARDEN IN ARGUMENT

YEAR AGO SHE SANG "THAIS" IN AMARILLO, TEXAS, AND WAS CRITICIZED

RETURNS TO TOWN, IS FETTERED, BUT WILL MAKE CURTAIN SPEECH TONIGHT

Amarillo, Tex., Nov. 3.—(U.P.)—Gene Howe, newspaper columnist, who has been called the "Tactless Texan," believes in returning good for evil and suggested today that Mary Garden, operatic star, assume a similar attitude.

A year ago, Miss Garden sang here in "Thais." Howe, in his column, declared she was "too old to sing" and that she "tottered about on the stage." That, Howe admitted, was "evil."

When Miss Garden and her company planned to play Amarillo again, this year, Howe invited her to his home for "an old fashioned" supper. That, he said, was "good."

She replied that she would be delighted "to attend tea" at the Howe home. Howe thinks that was evil.

But a tea it was, complete with frock tail coats, the first ever worn by Texas Panhandle plainmen. Miss Garden said she felt highly honored. That, Howe said, was "good."

But Miss Garden has not forgotten the criticism Howe made of her voice and appearance last year. In her own words, she is planning to "rip his hide" in a speech from the Auditorium stage tonight.

"I do not resent criticism and have no ill feelings whatever toward Mr. Howe," Miss Garden said. "The only thing that causes me to become exasperated was his rudeness in criticizing my show. I'll rip his hide for that." And that, Howe maintains, will be "very evil."

Howe plans to present her with the "biggest bouquet ever assembled" when she makes her appearance tonight. That, he insists, is "good" and suggests that Miss Garden also follow the scriptural advice.

HOME AGAIN

Mrs. Mary Yocum breathes easily again for the first time since last Saturday night, for her husband, Earl L. Yocum, Galva, Ill., bank president, who was kidnaped and held for ransom, is home unharmed. Mr. Yocum was kept blindfolded so that he could not see his captors nor locate the house to which he was taken.

LASHING SEA DASHES 3 INTO WATERY GRAVE

Havana, Cuba, Nov. 3.—(U.P.)—A lashing sea swept Mrs. William I. Jackson, wife of the American consul, from a rocky shore at Matanzas Bay yesterday and drowned Mrs. Jackson, her husband, and a friend when the two men attempted to save her.

WORLD-WIDE SUMMARY OF UNEMPLOYMENT

UNITED PRESS OBTAINS REVIEW FROM OFFICIAL SOURCES IN LEADING CAPITALS

MOST OF WORLD IS SUFFERING ACUTELY FROM VAST GROWTH OF PROBLEM

Following up its two surveys of unemployment conditions in the United States, carried during October, the United Press herewith presents a world-wide summary of unemployment conditions, obtained by careful investigation from official sources in the leading capitals.

(Copyright, 1930, by United Press)

Most of the world, with the exception of France, is suffering acutely from a vast growth of unemployment.

The international labor organization at Geneva estimates the total in the world at 12,000,000 to 15,000,000, but admits the figures are incomplete.

The United States leads in the Geneva figures, with an estimated 4,000,000 idle. The figure is considerably higher than that of the United States census, which estimated about 3,500,000 in April, while President Hoover's associates place the number at present as 3,500,000.

Germany showed the greatest unemployment in proportion to population, with one person in 20 being out of work. Great Britain was next with about 1 out of 22 jobless, and the United States third with about 1 out of 30.

Germany, not listed in the Geneva figures, announced an official count of 3,184,000. The Geneva figures place the unemployed in Russia at 1,150,000—although the number was denied in Moscow and Great Britain at 2,100,000. France has only 1,000.

Reports from various centers gathered by the United Press follow:

Geneva—The international labor organization conservatively estimates the total of unemployed in the world at 12,000,000 to 15,000,000.

The bureau admits that the figures are not entirely satisfactory because, first, many countries failed to submit reports; second, many countries submitted figures only on unemployed belonging to trade unions; third, other countries tabulated only unemployed receiving unemployment benefits; fourth, still other countries distinguished between those totally and those partially unemployed.

The bureau's latest figures follow:

Country	Unemployed	Total population
Austria	156,000	8,526,661
Belgium	64,000	7,923,077
Canada	20,000	9,986,800
Czechoslovakia	37,000	14,523,186
Denmark	25,000	3,434,555
Dantzic	15,000	386,060
Finland	4,000	3,582,406
France	1,000	40,745,874
Great Britain	2,100,000	44,173,704
Hungary	20,000	8,368,273
Italy	400,000	40,796,000
Netherlands	25,000	7,625,936
Norway	20,000	2,649,775
Poland	240,000	30,212,962
Palestine	5,000	852,268
Roumania	23,000	17,393,149
Russia	1,150,000	150,000,000
Saar	7,000	770,000
Sweden	26,000	6,087,923
United States	4,000,000	122,000,000
Jugoslavia	7,000	12,017,323

The bureau stressed the point that France is the only country where unemployment actually is under control, although it is diminishing rapidly in Russia.

London—The number of unemployed in Great Britain is jumping at the rate of 10,000 to 20,000 a week and at the end of October totalled 2,100,000, which was almost 1,000,000 more than at the same time last year.

A serious aspect of the situation is that three-fourths of the registered jobless are totally unemployed whereas in previous years a large percentage had merely stopped work temporarily.

Berlin, Nov. 3.—Official figures listed 3,184,000 unemployed in Germany in mid-October, but many more jobless probably were not included because of failure to register.

Only 1,880,000 receive the so-called

WARMEST ELECTION KEYS THE PUBLIC TO TENSE SITUATION

CLOSE RACES SEEN IN MAJORITY OF OFFICES; LAST APPEALS TODAY

POLLS IN CITY OPEN 6:30 A. M., IN COUNTY, 9 A. M., ALL CLOSE AT 8 P. M.

Sweeping across the entire county, a tension prevailed today as voters awaited the opening of the polls tomorrow in Crow Wing county's warmest and most exciting election.

Keyed to a pitch for weeks now by arguments pro and con relative to the merits of candidates and hearing final trumpet blasts today of those seeking office and their campaign followers, voters were anxious to cast their ballots and then learn the result of the ardent contests.

So interested have the voters become in the county and state election that the vote for Crow Wing county is expected to be a record one, even larger than in the presidential election in 1928 when 10,100 votes were cast in the county.

In 54 precincts today a total of 39,000 ballots was on hand for distribution to voters. Each will receive three ballots, voting on county and state candidates, and one ballot on the amendments.

Polls in Brainerd will open at 6:30 A. M. and will not close until 8 P. M. Polls in the country will open at 9 A. M. and close at 8 P. M.

Election clerks were instructed to make returns as quickly as possible to the county auditor's office so that complete definite returns can be secured by Wednesday afternoon.

Betting on the outcome found few followers today. Those who did place bets did so at even money, the chances for offices in the county most hotly contested for being even up.

Thousands of dollars have already been expended by county candidates in their quest for public positions for the next four years.

Six incumbents are sure to be re-elected. Those who are without opposition being W. A. M. Johnston for clerk of the district court, Sam R. Adair for county treasurer, Louis Knutsen for county surveyor, D. E. Whitney for county coroner, C. Rosenmeier for senator in the legislature, 53rd district, and Edward P. Scallion, representative in the legislature, 53rd district.

Heading the list on the ballot for offices affecting this county is that of representative in congress. Harold Knutsen, incumbent, is considered the choice in this county. He is the best known of the three candidates, John Knutsen, farmer-labor, and P. J. Russell, democrat, being the opponents to the republican. Knutsen and Russell will be runners-up, it was generally predicted. Republicans, however, are known not to be solidly behind the candidacy of Congressman Knutsen and many will vote against their party not favoring the incumbent.

Judge Michael E. Ryan of Brainerd and Alfred L. Thwing, senator from Grand Rapids, oppose each other for judge of the district court. These two have appealed to the voters in an exchange of letters and newspaper advertisements. Judge Ryan will receive a heavy vote in Crow Wing, Morrison, Aitkin, and Cass counties while the northern candidate will receive a popular vote in his own county, Itasca, and others surrounding it. With a 55,000 vote in the district, the candidates look to a battle of ballots.

In the race for representative of Crow Wing county in the state legislature, P. J. Long of Ironton opposes A. M. Opsahl, Brainerd, incumbent. Both have held the office.

F. M. Hagberg and C. W. Mahlum, the latter the incumbent, stage what is predicted will be one of the closest battles for the office of county auditor. Both are well known in Brainerd and the county.

Earle W. Jenkins and Carney O. Peterson are on the ballot for county register of deeds. The former rates a

"dole," which is a fund to which employers and employees contribute.

Rome—Unemployed in Italy on Oct. 1 totalled 391,249, compared with 375,448 in the preceding month, and 228,831 at the same time last year.

Paris—Unemployment is almost nonexistent in France, since the open jobs restored in the government placement bureaus almost triple the requests for employment.

The ministry of agriculture estimates that France needs 20,000 farm hands, since 2,000,000 acres capable of producing enough wheat to make France self-sustaining are at present untillied. The government therefore has signed agreements by which 10,000 Roumanians and 8,000 Poles will enter France, engaging to remain at least one year on farms or in factories.

Moscow, U. S. S. R.—The unemployment situation in Russia is rapidly diminishing. Rather than finding jobs for men, the Soviet authorities are faced with problem of men for jobs, because of the great need of the country's industrial expansion.

Other officers rushed into homes of the neighborhood, ordering residents to evacuate at once. Ambulances were being held in readiness at the edge of the danger zone.

The explosion, which employees said occurred when a truck, backing from a garage, broke a gasoline line, came just as a passenger train on the M-K-T road was entering the yards and was passing the tanks. Passengers on the train had miraculous escapes as the force of the blast shattered windows of two Pullmans and a diner. Stewards and W. P. McConnell, Fort Worth, Texas, conductor, said no one was injured by flying glass.

"Dishes were blown out of the waiter's hands," the diner steward said, "and the train rocked so that I thought we were going to leave the rails."

McConnell said there was little doubt the train would have been completely wrecked if it had been traveling faster.

Smoke from the blaze caused semi-darkness throughout most of the city, although it was a cloudless day.

A string of tank cars, loaded with naphtha, were on a siding near the plant when the explosion occurred. A box car attached to the string caught fire, and a certain explosion was prevented only when an engineer backed his switch engine into the heavy smoke to draw the cars to a point where employees of the Kansas City Terminal railroad could beat out the flames on the box car.

GENE HOWE AND MARY GARDEN IN ARGUMENT

YEAR AGO SHE SANG "THAIS" IN AMARILLO, TEXAS, AND WAS CRITICIZED

RETURNS TO TOWN, IS FETTERED, BUT WILL MAKE CURTAIN SPEECH TONIGHT

Amarillo, Tex., Nov. 3.—(U.P.)—Gene Howe, newspaper columnist, who has been called the "Tactless Texan," believes in returning good for evil and suggested today that Mary Garden, operatic star, assume a similar attitude.

A year ago, Miss Garden sang here in "Thais." Howe, in his column, declared she was "too old to sing" and that she "tattered about on the stage." That, Howe admitted, was "evil."

When Miss Garden and her company planned to play Amarillo again, this year, Howe invited her to his home for "an old fashioned" supper. That, he said, was "good."

She replied that she would be delighted "to attend tea" at the Howe home. Howe thinks that was evil.

But a tea it was, complete with frock tail coats, the first ever worn by Texas Panhandle plainmen. Miss Garden said she felt highly honored. That, Howe said, was "good."

But Miss Garden has not forgotten the criticism Howe made of her voice and appearance last year. In her own words, she is planning to "rip his hide" in a speech from the Auditorium stage tonight.

"I do not resent criticism and have no ill feelings whatever toward Mr. Howe," Miss Garden said. "The only thing that causes me to become exasperated is his rudeness in criticizing my show. I'll rip his hide for that."

And that, Howe maintains, will be "very evil."

Howe plans to present her with the "biggest bouquet ever assembled" when she makes her appearance tonight. That, he insists, is "good" and suggests that Miss Garden also follow the scriptural advice.

HOME AGAIN

Mrs. Mary Yocum breathes easily again for the first time since last Saturday night, for her husband, Earl L. Yocum, Galva, Ill., bank president, who was kidnapped and held for ransom, is home unharmed. Mr. Yocum was kept blindfolded so that he could not see his captors nor locate the house to which he was taken.

LASHING SEA DASHES 3 INTO WATERY GRAVE

Havana, Cuba, Nov. 3.—(U.P.)—A lashing sea swept Mrs. William I. Jackson, wife of the American consul, from a rocky shore at Matanzas Bay yesterday and drowned Mrs. Jackson, her husband, and a friend when the two men attempted to save her.

WORLD-WIDE SUMMARY OF UNEMPLOYMENT

UNITED PRESS OBTAINS REVIEW FROM OFFICIAL SOURCES IN LEADING CAPITALS

MOST OF WORLD IS SUFFERING ACUTELY FROM VAST GROWTH OF PROBLEM

Following up its two surveys of unemployment conditions in the United States, carried during October, the United Press herewith presents a world-wide summary of unemployment conditions, obtained by careful investigation from official sources in the leading capitals.

(Copyright, 1930, by United Press)

Most of the world, with the exception of France, is suffering acutely from a vast growth of unemployment.

The international labor organization at Geneva estimates the total in the world at from 12,000,000 to 15,000,000, but admits the figures are incomplete.

The United States leads in the Geneva figures, with an estimated 4,000,000 idle. The figure is considerably higher than that of the United States census, which estimated about 2,500,000 in April, while President Hoover's associates place the number at present as 3,500,000.

Germany showed the greatest unemployment in proportion to population, with one person in 20 being out of work. Great Britain was next with about 1 out of 22 jobless, and the United States third with about 1 out of 30.

Germany, not listed in the Geneva figures, announced an official count of 3,184,000. The Geneva figures place the unemployed in Russia at 1,150,000—although the number was denied in Moscow and Great Britain at 2,100,000. France has only 1,000.

Reports from various centers gathered by the United Press follow:

Geneva—The international labor organization conservatively estimates the total of unemployed in the world at 12,000,000 to 15,000,000.

The bureau admits that the figures are not entirely satisfactory because, first, many countries failed to submit reports; second, many countries submitted figures only on unemployed belonging to trade unions; third, other countries tabulated only unemployed receiving unemployment benefits; fourth, still other countries distinguished between those totally and those partially unemployed.

The bureau's latest figures follow:

Country	Unemployed	Total population
Austria	156,000	6,526,661
Belgium	64,000	7,023,077
Canada	20,000	9,986,800
Czechoslovakia	37,000	14,523,186
Denmark	25,000	3,434,555
Danzig	15,000	386,060
Finland	4,000	3,582,406
France	1,000	40,745,874
Great Britain	2,100,000	44,173,704
Hungary	20,000	8,368,273
Italy	400,000	40,796,000
Netherlands	25,000	7,625,936
Norway	20,000	2,649,775
Poland	240,000	30,212,962
Palestine	5,000	822,268
Roumania	23,000	17,398,149
Russia	1,150,000	150,000,000
Saar	7,000	770,000
Sweden	26,000	6,087,923
United States	4,000,000	122,000,000
Yugoslavia	7,000	12,017,323

The bureau stressed the point that France is the only country where unemployment actually is under control, although it is diminishing rapidly in Russia.

London—The number of unemployed in Great Britain is jumping at the rate of 10,000 to 20,000 a week and at the end of October totaled 2,100,000, which was almost 1,000,000 more than at the same time last year.

A serious aspect of the situation is that three-fourths of the registered jobless are totally unemployed whereas in previous years a large percentage had merely stopped work temporarily.

Berlin, Nov. 3.—Official figures listed 3,164,000 unemployed in Germany in mid-October, but many more jobless probably were not included because of failure to register.

WARMEST ELECTION KEYS THE PUBLIC TO TENSE SITUATION

CLOSE RACES SEEN IN MAJORITY OF OFFICES; LAST APPEALS TODAY

POLLS IN CITY OPEN 6:30 A. M., IN COUNTY, 9 A. M., ALL CLOSE AT 8 P. M.

Sweeping across the entire county, a tension prevailed today as voters awaited the opening of the polls tomorrow in Crow Wing county's warmest and most exciting election.

Keyed to a pitch for weeks now by arguments pro and con relative to the merits of candidates and hearing final trumpet blasts today of those seeking office and their campaign followers, voters were anxious to cast their ballots and then learn the result of the ardent contests.

So interested have the voters become in the county and state election that the vote for Crow Wing county is expected to be a record one, even larger than in the presidential election in 1928 when 10,100 votes were cast in the county.

In 54 precincts today a total of 39,000 ballots was on hand for distribution to voters. Each will receive three ballots, voting on county and state candidates, and one ballot on the amendments.

Polls in Brainerd will open at 6:30 A. M. and will not close until 8 P. M. Polls in the country will open at 9 A. M. and close at 8 P. M.

Election clerks were instructed to make returns as quickly as possible to the county auditor's office so that complete definite returns can be secured by Wednesday afternoon.

Betting on the outcome found few followers today. Those who did place bets did so at even money, the chances for offices in the county most hotly contested for being even up.

Thousands of dollars have already been expended by county candidates in their quest for public positions for the next four years.

Six incumbents are sure to be returned. Those who are without opposition being W. A. M. Johnston for clerk of the district court, Sam R. Adair for county treasurer, Louis Knutsen for county surveyor, D. E. Whitney for county coroner, C. Rosenmeier for senator in the legislature, 53rd district, and Edward P. Scallion, representative in the legislature, 53rd district.

Heading the list on the ballot for offices affecting this county is that of representative in congress. Harold Knutsen, incumbent, is considered the choice in this county. He is the best known of the three candidates, John Knutsen, farmer-laborer, and P. J. Russell, democrat, being the opponents to the republican. Knutsen and Russell will be runners-up, it was generally predicted. Republicans, however, are known not to be solidly behind the candidacy of Congressman Knutsen and many will vote against their party not favoring the incumbent.

Judge Michael E. Ryan of Brainerd and Alfred L. Thwing, senator from Grand Rapids, oppose each other for judge of the district court. These two have appealed to the voters in an exchange of letters and newspaper advertisements. Judge Ryan will receive a heavy vote in Crow Wing, Morrison, Aitkin, and Cass counties while the northern candidate will receive a popular vote in his own county, Itasca, and others surrounding it. With a 55,000 vote in the district, the candidates look to a battle of ballots.

In the race for representative of Crow Wing county in the state legislature, P. J. Long of Ironton opposes A. M. Opsahl, Brainerd, incumbent. Both have held the office.

F. M. Hagberg and C. W. Mahlum, the latter the incumbent, stage what is predicted will be one of the closest battles for the office of county auditor. Both are well known in Brainerd and the county.

Earle W. Jenkins and Carney O. Peterson are on the ballot for county register of deeds. The former rates a

"dole," which is a fund to which employers and employees contribute. Rome—Unemployed in Italy on Oct. 1 totaled 391,249, compared with 375,448 in the preceding month, and 228,831 at the same time last year.

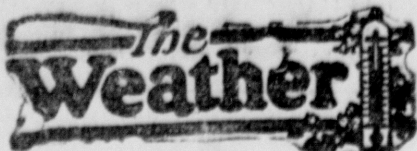

Paris—Unemployment is almost nonexistent in France, since the open jobs registered in the government placement bureaus almost triple the requests for employment.

The ministry of agriculture estimates that France needs 20,000 farm hands, since 2,000,000 acres capable of producing enough wheat to make France self-sustaining are at present untitled. The government therefore has signed agreements by which 10,000 Roumanians and 8,000 Poles will enter France, engaging to remain at least one year on farms or in factories.

Moscow, U. S. S. R.—The unemployment situation in Russia is rapidly diminishing. Rather than finding jobs for men, the Soviet authorities are faced with the problem of men for jobs, because of the great speed of the country's industrial expansion.

25TH WEDDING ANNIVERSARY

Mr. and Mrs. Axel S. Lindberg Honored by Friends on Occasion

Happy Couple Were Married in Brainerd, Making Home Here Ever Since

The 25th wedding anniversary of Mr. and Mrs. Axel S. Lindberg, East Oak street, was celebrated Saturday evening when about 60 of their friends gathered at the home in a surprise on them.

The social time included a pleasing program, of which Rev. P. G. Fallquist, of the Swedish Bethany church had charge. A duet "The Sweetest Story Ever Told" was sung by Mrs. Arthur Fredstrom and Miss Carrie Erickson, and Mrs. Fredstrom also pleasingly rendered a solo "My Task."

The Swedish Bethany Sunday school octet then gave a selection, and several songs were also sung by the gathering.

Rev. Fallquist gave a short talk, and presented the honored couple with a set of table silverware from the gathering. Frank Anderson and Mrs. Fallquist also gave short talks congratulating Mr. and Mrs. Lindberg on their silver anniversary, Mr. Lindberg responding.

At a late hour, a dainty lunch was served, which had been provided by the guests, including a beautiful wedding cake presented them by Mr. and Mrs. August Hedlof of the Quality Bake Shop.

Mr. and Mrs. Lindberg were married in Brainerd 25 years ago last Saturday, and have made their home here ever since.

Enjoy Birthday Celebration in City

Mr. and Mrs. Gilbert Olson of Pelican Rapids, Arthur Larson of Earnesville and Anna Tingstad of Pelican Rapids arrived by car Saturday evening to visit at the home of Mr. and Mrs. Lewis Frederickson, 324 Mill Avenue Northeast. They came to help Mr. Frederickson celebrate his 55th birthday anniversary.

On Sunday morning they left for Duluth, accompanied by Mr. and Mrs. Frederickson and Miss Molly Frederickson, where they called on relatives and friends, also stopping for short visits at Carlton and McGregor. On their return to Brainerd Sunday evening a birthday dinner was served, two large birthday cakes decorating the table.

Mr. and Mrs. Olson and party left this afternoon for their homes.

Hallowe'en Party Little Lois and Eugene Nesheim entertained their friends at a Hallowe'en party Saturday night at the home of their parents, 610 Quince St. A happy evening was spent in games, Mrs. Nesheim serving a lunch to the nine guests. Decorations were in the Hallowe'en motif.

To Entertain Alpha Class Mrs. George Tracy and Mrs. Henry Graham will entertain the Alpha class of the First Baptist church at the home of Mrs. Tracy, 519 North Eighth street on Tuesday evening, November 4. A large attendance is desired.

GENERAL ELECTION NOV. 4TH

25TH WEDDING ANNIVERSARY

Mr. and Mrs. Axel S. Lindberg Honored by Friends on Occasion

ENTERTAIN 60 GUESTS

Happy Couple Were Married in Brainerd, Making Home Here Ever Since

The 25th wedding anniversary of Mr. and Mrs. Axel S. Lindberg, East Oak street, was celebrated Saturday evening when about 60 of their friends gathered at the home in a surprise on them.

The social time included a pleasing program, of which Rev. P. G. Fallquist, of the Swedish Bethany church had charge. A duet "The Sweetest Story Ever Told" was sung by Mrs. Arthur Fredstrom and Miss Carrie Erickson, and Mrs. Fredstrom also pleasingly rendered a solo "My Task."

The Swedish Bethany Sunday school, octet then gave a selection, and several songs were also sung by the gathering.

Rev. Fallquist gave a short talk, and presented the honored couple with a set of table silverware from the gathering. Frank Anderson and Mrs. Fallquist also gave short talks congratulating Mr. and Mrs. Lindberg on their silver anniversary. Mr. Lindberg responded.

At a late hour, a dainty lunch was served, which had been provided by the guests, including a beautiful wedding cake presented them by Mr. and Mrs. August Hedlof of the Quality Bake Shop.

Mr. and Mrs. Lindberg were married in Brainerd 25 years ago last Saturday, and have made their home here ever since.

Enjoy Birthday

Celebration in City

Mr. and Mrs. Gilbert Olson of Pelican Rapids, Arthur Larson of Barnesville and Anna Tingstad of Pelican Rapids arrived by car Saturday evening to visit at the home of Mr. and Mrs. Lewis Fredrickson, 324 Mill Avenue Northeast. They came to help Mr. Fredrickson celebrate his 55th birthday anniversary.

On Sunday morning they left for Duluth, accompanied by Mr. and Mrs. Fredrickson and Miss Molly Fredrickson, where they called on relatives and friends, also stopping for short visits at Carlton and McGregor. On their return to Brainerd Sunday evening a birthday dinner was served, two large birthday cakes decorating the table.

Mr. and Mrs. Olson and party left this afternoon for their homes.

Hallowe'en Party

Little Lois and Eugene Nesheim entertained their friends at a Hallowe'en party Saturday night at the home of their parents, 610 Quince St. A happy evening was spent in games, Mrs. Nesheim serving a lunch to the nine guests. Decorations were in the Hallowe'en motif.

M. W. DOWNIE, M. & I. AUDITOR, IS STRICKEN

Active Personage in Railway Dies at His Home Here Early Sunday
CITIZEN HERE 30 YEARS
Started Career With N. P. in Accounting Department in St. Paul in 1885

Death claimed early Sunday a thoroughly efficient railway official and respected citizen of Brainerd in the person of Milford West Downie, auditor of the Minnesota and International Railway for the past 30 years.

Mr. Downie died of heart disease at his home, 623 North 7th street. He was born in Harvey, New Brunswick on June 13, 1862.

Coming west as a young man he entered the service of the C. St. P. M. & O. Railway Co. in 1882, working for that company until the year 1885 when he entered the accounting department of the Northern Pacific railway in St. Paul. Later he was promoted to auditor of the Yellowstone Park Company, which the Northern Pacific controlled at that time and held that position for eight years.

When the Northern Pacific secured control of the Brainerd and Northern Minnesota Railway Company he was made its auditor in Brainerd on July 1, 1900. That company later became the Minnesota and International Railway and he continued in its service as auditor until the day of his death.

Mr. Downie is survived by his widow, who was Evelyn Meldrum of Denver, Colo., whom he married on December 26, 1897, and three children, John M. Downie, an electrical engineer connected with the General Electric Company in Erie, Pa., Myrle Evelyn Downie, in social welfare work in Los Angeles, and Milford West Downie, Jr., a student in the University of California at Los Angeles.

Mr. Downie was a member of the Presbyterian church and the Masonic order in Brainerd.

His three children and other relatives are on their way to Brainerd and the date of the funeral is pending their arrival.

SCOUT BROADCASTER

By J. M. SCHMITT
Field Scout Executive

Last Saturday the scouts of Brainerd visited the cabin of troop 43 on Long Lake. It's a beautiful spot; in the midst of tall jack pine. Troop 43's scouts are always busy; they finished a fine Totem Pole and just set it up at the cabin. After we arrived at the cabin we played "touch-ball" and football. After lunch "capture the flag" kept us busy. Everybody enjoyed it too. For lunch some scouts (Tenderfoot) brought sandwiches along. The rest prepared their meal from raw materials. Baking powder biscuits, pork chops, baked beans, mmm. That's real sport! Soon the scouts will go on another hike and have a good time.

I promised to answer questions. Here are some often asked with their answers. If you have any you wish to ask, send them to me at the court house in Brainerd and I will answer them through this column.

Q. What is Scouting?
A. Lord Robert Baden Powell, in his book "Scoutmastership" says: "Scouting is a game in which elder brothers can give their younger brothers healthy environment and encourage

them to healthy activities such as will help them to develop citizenship.

It's strongest appeal is through nature study and woodcraft. It deals with the individual not the company. It raises intellectual as well as pure physical or purely moral qualities."

Q. What is the purpose of the corporation known as the Boy Scouts of America?
A. The purpose of the corporation is "to promote, through organization, and cooperation with other agencies, the ability of boys to do things for themselves and others, to train them in scoutcraft and to teach them patriotism, courage, self-reliance, and kindred virtues, using the methods which are now in common use by Boy Scouts, by placing emphasis upon the Scout Oath and Law for character development, citizenship training, and physical fitness."

Q. How many Boy Scout troops have we in Brainerd?
A. Four.

Troop 43, sponsored by N. E. P. T. A. meet at Lowell school, Scoutmaster Mr. Fish.

Troop 45, sponsored by Congregational church, meet in basement, Scoutmaster Lee Slipp.

Troop 46, sponsored by Lions club, meet at court house, Scoutmaster Rev. Brandon.

Troop 47, sponsored by Knights of Columbus, meet at old city jail, Scoutmaster Mr. LaVasseur.

Remember the next Court of Honor for Brainerd district will be on Nov. 10. This is on Monday night. Everybody welcome. No collection. Dr. A. K. Cohen is chairman of the court.

Scouts take notice and have your Merit Badge applications in before the ninth.

Scouts, do a good turn daily.

To Inspect Lodge

Mrs. Inez Moyer of Minneapolis, general organizer of the Degree of Honor, is here to inspect the local lodge and juvenile department at their meeting tomorrow evening.

A large number are expected to be out for the meeting, and a social hour and lunch will follow the business session.

Game Called Off

Scheduled once on the program for Brainerd high and later cancelled, the Park Rapids football game at the latter's field was not played Saturday. A last minute check of schedules revealed that the game had been stricken.

COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe

and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

Citizens and Taxpayers:

Recently a letter was placed at homes in the Fourth District questioning how much I might know about the office of the County Engineer. The last half of this letter was so far from actual facts that the sender had to retract (cut off) his statements in safety to himself.

The findings of the State Audit, or any other evidence regarding the Road and Bridge Fund have not been presented to the County Board. When any such evidence is presented to the County Board, my vote will be to protect the interests of the taxpayers of Crow Wing County.

Your county has become free from all bonded indebtedness, your Road and Bridge Fund has been put on practically a cash basis. We have reduced your taxes in each of the last two years. This year a reduction of three mills or \$40,000. It is because of the fine financial condition of the county that I solicit your vote on November 4th.

OTHER PEOPLE'S OPINIONS Concerning Qualifications of Candidates for County Attorney The Wasters are Opposing Sullivan

November 1, 1930.
To the Editor of Brainerd Dispatch and Voters of Crow Wing County:

I attended the meeting held by the League of Women Voters and heard D. H. Fullerton's address and I have also read his letter to the voters, of October 29th, and notice his various claims to the public for their support, and am much amused at the facts set forth.

First, he takes all credit for the legal work done in handling the \$300,000.00 Water System. I know, and others will remember, that the City Council at that time employed Attorney Walter F. Wieland as special attorney to handle the legal work on this matter. This can be verified by referring to File No. 9370 in the Clerk of the District Court office. Mr. Wieland was paid for this work by the City of Brainerd.

Secondly, I am unable to understand his statement regarding the \$350,000.00 expenditure for paving and the \$100,000.00 for sewer construction. The City Council authorizes these expenditures. If he refers to the bond issues covering these expenditures which bonds were issued in small amounts maturing over a period of years, no great ability was required.

Thirdly, as to the \$42,000.00 refund from the State of Minnesota for paving Oak Street, will say that it is customary for the state to voluntarily pay any city for paving accepted by them on a laid-out Trunk Highway, upon application for the same.

His last and most amusing claim is that he was the legal advisor in the construction of the new \$400,000.00 High School. If this is so, why did the School Board employ and pay Attorney F. E. Ebner for his professional services in connection with this project?

If Mr. Fullerton wished the voters to know his record, why didn't he mention some of the following cases:

The fact that Walter F. Wieland was retained by Mr. Fullerton to defend an action entitled Egan Novik, Guardian, vs. City of Brainerd, which according to the District Court records, is the only case won on behalf of the City of Brainerd, during Mr. Fullerton's tenure in office.

The fact that the plaintiff in the case of Catherine Undraitis vs. City of Brainerd, won a verdict of \$5178.77, District Court, File No. 9950.

The fact that the plaintiff in the case of Charles F. Tift vs. City of Brainerd, won a verdict of \$543.93.

(The last two cases cited were handled by Mr. Fullerton without help from any attorney.)

And in conclusion, I want to ask these questions:

Why was Walter Wieland retained by the School Board to prevent default of \$35,000.00 Refunding Bonds, after the bonding house had rejected them?

Why was Ambrose Tighe, Attorney of St. Paul, retained by the School Board to attend to legal work for District and prepare school legislation?

How much money has been paid out by City and Boards for special legal services?

Why did Mr. Fullerton, while drawing a salary from the City of Brainerd (you and me as taxpayers) and acting as its legal advisor, file a notice of personal injury liability on behalf of Mrs. E. T. Fleener, also a city em-

ployee, thereby insuring her the right to sue the City of Brainerd, his employer.

Last but not least, where is the union printing label on some of Mr. Fullerton's letters?

Yours truly,

MARTIN ANDERSON,

419 North 3rd Street

(Mr. Anderson served as Alderman in the Second Ward of the City of Brainerd four years while Mr. Fullerton was City Attorney.)

Investigation Needed

Garrison, Minn.
October 28, 1930.

To the Editor, Brainerd Daily Dispatch, Brainerd, Minn.

Dear Sir:

The Brainerd papers for several weeks past have given more or less space to the investigation of the road and bridge fund. It seems to me that a few words from a farmer would not be amiss.

There has been a need of this investigation without question. With conditions as they are, "low prices for produce and high taxes," it behooves the farmer as a taxpayer to find out in what manner and to what advantage his money is being spent.

In my opinion this investigation is very timely and appropriate and will result in the saving of many thousands of dollars to the taxpayers.

I believe that inasmuch as Mr. Sullivan has shown his fitness for his position in all ways that the farmers of this county should show their appreciation by returning him to office November 4.

Respectfully yours,

JOHN A. SCHLEY.

Pequot, Minn.
October 28, 1930.

To the Editor, Brainerd Daily Dispatch, Brainerd, Minn.

Dear Sir:

It seems that an effort is being made to throw a smoke screen over the investigation of the road and bridge fund.

In my opinion Mr. Sullivan knew what he was doing when he started this investigation and I am very confident that when the taxpayers get the findings of the examiners they will fully appreciate the timeliness and value of the investigation.

We are fortunate in having in the office of county attorney, a man of A. J. Sullivan's ability and integrity. He is a young man in years but in the short term as public servant of Crow Wing county has shown the people a fitness for the office which would be hard to find in men of greater years and experience.

I think that we should show our appreciation of Mr. Sullivan in a substantial manner on November 4.

Respectfully,

SEVERT OLSON,

Comments Investigation

October 27, 1930.
To Editor Brainerd Dispatch, Brainerd, Minn.

Dear Sir:

I have watched with considerable interest the progress of the investigation of the road and bridge expendi-

tures and I wish to commend the newspapers who have upheld County Attorney A. J. Sullivan in this investigation.

As a business man and taxpayer I feel that a disclosure of fraud should be supported by all of the people of the county regardless of the time or year.

Yours truly,

HAL F. WILLIS,

Jenkins, Minn.

Favors A. J. Sullivan

Editor Brainerd Daily Dispatch, Brainerd, Minn.

Dear Sir:

Just a few words regarding the investigation of the road and bridge fund which has received considerable mention in the papers of late.

There seems to be a tendency by some parties to belittle the results obtained in this investigation. It is my opinion that this investigation is a very appropriate thing in that any move to save the taxpayers' money is always in order and certainly feel that Mr. Sullivan is leading up to a saving of thousands of dollars of county money in the years to come.

We are very fortunate to have as county attorney a man of such calibre as A. J. Sullivan and as taxpayers we should be interested in returning to office a man who has so ably demonstrated that he has the interests of the taxpayers at heart.

Respectfully,

IVER BENSON,

Star Route, Pequot, Minn.

Taxpayer Gives Views

Pequot, Minn.
Oct. 28, 1930.

To the Editor, Brainerd Dispatch, Brainerd, Minn.

Dear Editor:

After reading the articles in the newspaper publications of Crow Wing county I think that it is time some of the farmers give their ideas. I am right behind County Attorney A. J. Sullivan in this investigation and although some of the interested knockers are trying to belittle it and call it by the name of politics I say let us have four years more of this same kind of politics. It is just what us taxpayers want and I have been a taxpayer in Sibley township for the past 34 years. I believe in a clean slate.

Respectfully yours,

J. B. ENNES,

Pequot, Minn.

Editor of The Brainerd Dispatch,

Dear Sir:

It is a long time since we have had a county official with courage enough to attack the willful and careless waste of the taxpayers' money and it is interesting to note the ones who are finding fault with Mr. Sullivan and trying to belittle his efforts by saying it is politics.

I have lived and farmed in the Town of Long Lake for 50 years and I think this is the time for the taxpayers "in self defense" to raise up in arms and get four more years of Mr. Sullivan's politics. Let us make the slogan, "four more years for County Attorney Arthur J. Sullivan."

HENRY M. BOUCK.

Certain statements made by my opponents have come to my attention from reliable sources, which statements are false and were evidently made with the intent to deceive the voters and taxpayers.

Great stress has been laid to the fact that my opponent is a taxpayer. I am and have been a taxpayer for many years.

Misrepresentations have been made regarding the County Attorney's contingent fund. It has been represented that \$1500.00 was appropriated this year to that fund and insinuations made that it was improperly spent. The facts are that in 1929 the commissioners appropriated only \$500.00 to the contingent fund, and for years it has been the custom to appropriate \$1000.00 per year. In 1930 there was appropriated \$1500.00, of which on Nov. 1st, 1930, there is a balance to the credit of this fund the sum of \$1017.42 as shown by the records in the offices of the Treasurer and Auditor. It requires the written authority of a Judge of the District Court before any money can be withdrawn from this fund, and the unspent money is returned at the end of each year to the general fund.

My record as shown by the records in the District Court disclose that during my term as

County Attorney I handled 180 cases of which only five were acquitted, two in which the juries disagreed and five pending trial.

Some are trying to belittle the investigation instigated by me of the Road and Bridge Expenditures. I believe from the findings in that investigation that every taxpayer has the right to look with suspicion upon those who are attempting to cover up the seriousness of this investigation, results of which will be submitted to the Grand Jury.

There has been and there may be more false and slanderous reports and insinuations of a personal nature and purporting to deal with my record in office, having as their motive selfishness and revenge; and so I ask each voter as a matter of fair play to consider my whole record in office, to ask any juror serving during that time as to how I handled my work and to always insist that criticism be made openly and with full opportunity to answer. The public has a right to know the truth.

On the basis of the foregoing facts your support at the election next Tuesday is requested and will be greatly appreciated.

ARTHUR J. SULLIVAN,
County Attorney.

Q. What is the purpose of the corporation known as the Boy Scouts of America?

A. The purpose of the corporation is "to promote, through organization, and cooperation with other agencies, the ability of boys to do things for themselves and others, to train them in scoutcraft and to teach them patriotism, courage, self-reliance, and kindred virtues, using the methods which are now in common use by Boy Scouts, by placing emphasis upon the Scout Oath and Law for character development, citizenship training, and physical fitness."

Q. How many Boy Scout troops have we in Brainerd?

A. Four.

Troop 43, sponsored by N. E. P. T. A., meet at Lowell school, Scoutmaster Mr. Fish.

Troop 45, sponsored by Congregational church, meet in basement, Scoutmaster Lee Slipp.

Troop 46, sponsored by Lions club, meet at court house, Scoutmaster Rev. Brandon.

Troop 47, sponsored by Knights of Columbus, meet at old city jail, Scoutmaster Mr. LaVasseur.

Remember the next Court of Honor for Brainerd district will be on Nov. 10. This is on Monday night. Everybody welcome. No collection. Dr. A. K. Cohen is chairman of the court.

Scouts take notice and have your Merit Badge applications in before the ninth.

Scouts, do a good turn daily.

To Inspect Lodge

Mrs. Inez Moyer of Minneapolis, general organizer of the Degree of Honor, is here to inspect the local lodge and juvenile department at their meeting tomorrow evening.

A large number are expected to be out for the meeting, and a social hour and lunch will follow the business session.

Game Called Off

Scheduled once on the program for Brainerd high and later cancelled, the Park Rapids football game at the latter's field was not played Saturday. A last minute check of schedules revealed that the game had been stricken.

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe

OTHER PEOPLE'S OPINIONS Concerning Qualifications of Candidates for County Attorney The Wasters are Opposing Sullivan

November 1, 1930.
To the Editor of Brainerd Dispatch
and
Voters of Crow Wing County:

I attended the meeting held by the League of Women Voters and heard D. H. Fullerton's address and I have also read his letter to the voters, of October 29th, and notice his various claims to the public for their support, and am much amused at the facts set forth.

First, he takes all credit for the legal work done in handling the \$300,000.00 Water System. I know, and others will remember, that the City Council at that time employed Attorney Walter F. Wieland as special attorney to handle the legal work on this matter. This can be verified by referring to File No. 9370 in the Clerk of the District Court office. Mr. Wieland was paid for this work by the City of Brainerd.

Secondly, I am unable to understand his statement regarding the \$350,000.00 expenditure for paving and the \$100,000.00 for sewer construction. The City Council authorized these expenditures. If he refers to the bond issues covering these expenditures which bonds were issued in small amounts maturing over a period of years, no great ability was required.

Thirdly, as to the \$42,000.00 refund from the State of Minnesota for paving Oak Street, will say that it is customary for the state to voluntarily pay any city for paving accepted by them on a laid-out Trunk Highway, upon application for the same.

His last and most amusing claim is that he was the legal advisor in the construction of the new \$400,000.00 High School. If this is so, why did the School Board employ and pay Attorney F. E. Ebner for his professional services in connection with this project?

If Mr. Fullerton wished the voters to know his record, why didn't he mention some of the following cases: The fact that Walter F. Wieland was retained by Mr. Fullerton to defend an action entitled Egan Novik, Guardian, vs. City of Brainerd, which according to the District Court records, is the only case won on behalf of the City of Brainerd, during Mr. Fullerton's tenure in office.

The fact that the plaintiff in the case of Catherine Undraitis vs. City of Brainerd, won a verdict of \$5178.77. District Court File No. 9950.

The fact that the plaintiff in the case of Charles F. Tift vs. City of Brainerd, won a verdict of \$543.93.

(The last two cases cited were handled by Mr. Fullerton without help from any attorney.)

And in conclusion, I want to ask these questions:

Why was Walter Wieland retained by the School Board to prevent default of \$35,000.00 Refunding Bonds, after the bonding house had rejected them?

Why was Ambrose Tighe, Attorney of St. Paul, retained by the School Board to attend to legal work for District and prepare school legislation?

How much money has been paid out by City and Boards for special legal services.

Why did Mr. Fullerton, while drawing a salary from the City of Brainerd (you and me as taxpayers) and acting as its legal advisor, file a notice of personal injury liability on behalf of Mrs. E. T. Fleener, also a city employee?

I have watched with considerable interest the progress of the investigation of the road and bridge expenditures, thereby insuring her the right to sue the City of Brainerd, his employee.

Last but not least, where is the union printing label on some of Mr. Fullerton's letters?

Yours truly,
MARTIN ANDERSON,
419 North 3rd Street
(Mr. Anderson served as Alderman in the Second Ward of the City of Brainerd four years while Mr. Fullerton was City Attorney.)

Investigation Needed
Garrison, Minn.
October 28, 1930.

To the Editor,
Brainerd Daily Dispatch,
Brainerd, Minn.

Dear Sir:

The Brainerd papers for several weeks past have given more or less space to the investigation of the road and bridge fund. It seems to me that a few words from a farmer would not be amiss.

There has been a need of this investigation without question. With conditions as they are, "low prices for produce and high taxes," it behooves the farmer as a taxpayer to find out in what manner and to what advantage his money is being spent.

In my opinion this investigation is very timely and appropriate and will result in the saving of many thousands of dollars to the taxpayers.

I believe that inasmuch as Mr. Sullivan has shown his fitness for his position in all ways that the farmers of this county should show their appreciation by returning him to office November 4.

Respectfully yours,
JOHN A. SCHLEY,
Pequot, Minn.
October 28, 1930.

To the Editor,
Brainerd Daily Dispatch,
Brainerd, Minn.

Dear Sir:

It seems that an effort is being made to throw a smoke screen over the investigation of the road and bridge fund.

In my opinion Mr. Sullivan knew what he was doing when he started this investigation and I am very confident that when the taxpayers get the findings of the examiners they will fully appreciate the timeliness and value of the investigation.

We are fortunate in having in the office of county attorney, a man of A. J. Sullivan's ability and integrity. He is a young man in years but in the short term as public servant of Crow Wing county has shown the people a fitness for the office which would be hard to find in men of greater years and experience.

I think that we should show our appreciation of Mr. Sullivan in a substantial manner on November 4.

Respectfully,
SEVERT OLSON,
Pequot, Minn., Star Rt.

County Attorney I handled 180 cases of which only five were acquitted, two in which the juries disagreed and five pending trial.

Some are trying to belittle the investigation instigated by me of the Road and Bridge Expenditures. I believe from the findings in that investigation that every taxpayer has the right to look with suspicion upon those who are attempting to cover up the seriousness of this investigation, results of which will be submitted to the Grand Jury.

There has been and there may be more false and slanderous reports and insinuations of a personal nature and purporting to deal with my record in office, having as their motive selfishness and revenge; and so I ask each voter as a matter of fair play to consider my whole record in office, to ask any juror serving during that time as to how I handled my work and to always insist that criticism be made openly and with full opportunity to answer. The public has a right to know the truth.

On the basis of the foregoing facts your support at the election next Tuesday is requested and will be greatly appreciated.

ARTHUR J. SULLIVAN,
County Attorney.

Editor of The Brainerd Dispatch,
Dear Sir:

It is a long time since we have had a county official with courage enough to attack the willful and careless waste of the taxpayers' money and it is interesting to note the ones who are finding fault with Mr. Sullivan and trying to belittle his efforts by saying it is politics.

I have lived and farmed in the Town of Long Lake for 50 years and I think this is the time for the taxpayers "in self defense" to raise up in arms and get four more years of Mr. Sullivan's politics. Let us make the slogan, "Four more years for County Attorney Arthur J. Sullivan."

Dear Sir:

After reading the articles in the newspaper publications of Crow Wing county I think that it is time some of the farmers give their ideas. I am right behind County Attorney A. J. Sullivan in this investigation and although some of the interested knockers are trying to belittle it and call it by the name of politics I say let us have four years more of this same kind of politics. It is just what us taxpayers want and I have been a taxpayer in Sibley township for the past 34 years. I believe in a clean slate.

Citizens and Taxpayers:

Recently a letter was placed at homes in the Fourth District questioning how much I might know about the office of the County Engineer. The last half of this letter was so far from actual facts that the sender had to retract (cut off) his statements in safety to himself.

The findings of the State Audit, or any other evidence regarding the Road and Bridge Fund have not been presented to the County Board. When any such evidence is presented to the County Board, my vote will be to protect the interests of the taxpayers of Crow Wing County.

Your county has become free from all bonded indebtedness, your Road and Bridge Fund has been put on practically a cash basis. We have reduced your taxes in each of the last two years. This year a reduction of three mills or \$40,000. It is because of the fine financial condition of the county that I solicit your vote on November 4th.

Very sincerely,

Frank J. Lowey

A Splendid Record

No county attorney in the history of Crow Wing county has a better record of achievement than the present incumbent, Arthur J. Sullivan. He has been a most conscientious and faithful official and should be retained in the position.

If in conducting one's private business one has an efficient and capable employe, one does not even consider dismissing him because someone else, perhaps also an efficient person, desires the job, but retains his tried and true employe. This is good sense and good practice in selecting public officials as well as in private practice. Therefore it should be a privilege to vote to retain Mr. Sullivan in the position he has filled so capably.

Another reason for retaining Mr. Sullivan is that he has shown unusual zeal in protecting the county funds that an investigation instituted by him has shown is being badly wasted if not criminally dissipated.

Vote for a faithful public servant, A. J. Sullivan, for county attorney.

Fairness Displayed

WHEN Hon. M. E. Ryan took up the judgeship he made a statement at the time that he would refuse to preside in any matters in which the firm of Ryan and Ryan is interested.

He opened the September term of the district court in Aitkin, and later called in Judge B. F. Wright to preside in matters in which the firm composed of two of his sons is interested.

Voters may thus be assured that Judge Ryan's conduct of the district court will at all times be one to carry out the highest ethics of the bench.

School Police Plan Favored

THE use of "Stop" signs on trunk highways in front of school buildings is being discouraged by the Minnesota Highway department. The safest and best plan of protecting children who must cross a trunk highway or busy street, says a Highway bulletin, is to take them across in organized groups, under the direction of school police or other responsible persons.

Most communities which have tried the "Stop" sign method have either discarded it or they are considering doing so, the bulletin says. But when some discard the plan, others feel that they must try it.

Looking at the matter from the viewpoint of the average motorist makes it clear why one plan works and the other does not. Just as he welcomes a stop-and-go sign at a busy intersection but resents their use where there is little traffic, he likewise welcomes a "stop" sign displayed by a student "cop" while groups of children are taken across, but resents being compelled to stop when there are no children crossing.

Even where the signs are used only during a short period before school opens and after it closes, and at recess, this does not remedy the situation. A certain percentage of motorists, knowing that children are not crossing all the time the sign is up, fail to stop, and this destroys the effectiveness of the whole plan. The children, given a false sense of security by the "stop" sign, fail to exercise the caution they should. Other motorists feel that they have done their duty when they have made the required stop, and then speed up again. This creates a hazard for children who are straggling across, either near the sign or elsewhere.

Motorists generally have come to recognize the "stop" signs held in the hand by school police, and disregard of this sign is almost unknown. If anyone ever fails to stop, other motorists and pedestrians are quick to see that he is apprehended and promptly punished. The safety records in communities which have adopted the school police plan are very close to 100 per cent perfect, and the communities which have tried the plan are all continuing its use.

Our Own Interests

No voter in Crow Wing County should fail to vote for our District Judge, M. E. Ryan, next Tuesday.

There are nine counties in the Fifteenth Judicial District. The THREE southernmost counties—Aitkin, Cass and Crow Wing—have a population of 55,000, according to the 1920 census. The remaining SIX counties to the north have 83,000 population. The northern counties now have TWO of the three district judges. Yet Itasca County now wants the THIRD judge, leaving these three counties and their 55,000 people WITHOUT ANY resident judge. Good sense and a spirit of fairness do not support such a claim.

The loss of this important office to our county would mean the expenditure of litigants' and taxpayers' money which is not now necessary.

Our county has a greater population than any other in the district. Our county seat is the largest city in the district. The district has three judges, and surely we are entitled to one.

The office brings many people to the county. It is an asset we should retain. IT IS UP TO US TO VOTE SOLIDLY FOR JUDGE RYAN, not only because of these things, but particularly because his proven ability, integrity and unquestioned fairness, demand his continuance in office.

Do not be misled by those who disregard the welfare of our county.

A Splendid Record

No county attorney in the history of Crow Wing county has a better record of achievement than the present incumbent, Arthur J. Sullivan. He has been a most conscientious and faithful official and should be retained in the position.

If in conducting one's private business one has an efficient and capable employee, one does not even consider dismissing him because someone else, perhaps also an efficient person, desires the job, but retains his tried and true employee. This is good sense and good practice in selecting public officials as well as in private practice. Therefore it should be a privilege to vote to retain Mr. Sullivan in the position he has filled so capably.

Another reason for retaining Mr. Sullivan is that he has shown unusual zeal in protecting the county funds that an investigation instituted by him has shown is being badly wasted if not criminally dissipated.

Vote for a faithful public servant, A. J. Sullivan, for county attorney.

Fairness Displayed

WHEN Hon. M. E. Ryan took up the judgeship he made a statement at the time that he would refuse to preside in any matters in which the firm of Ryan and Ryan is interested.

He opened the September term of the district court in Aitkin, and later called in Judge B. F. Wright to preside in matters in which the firm composed of two of his sons is interested.

Voters may thus be assured that Judge Ryan's conduct of the district court will at all times be one to carry out the highest ethics of the bench.

School Police Plan Favored

THE use of "Stop" signs on trunk highways in front of school buildings is being discouraged by the Minnesota Highway department. The safest and best plan of protecting children who must cross a trunk highway or busy street, says a Highway bulletin, is to take them across in organized groups, under the direction of school police or other responsible persons.

Most communities which have tried the "Stop" sign method have either discarded it or they are considering doing so, the bulletin says. But when some discard the plan, others feel that they must try it.

Looking at the matter from the viewpoint of the average motorist makes it clear why one plan works and the other does not. Just as he welcomes a stop-and-go sign at a busy intersection but resents their use where there is little traffic, he likewise welcomes a "stop" sign displayed by a student "cop" while groups of children are taken across, but resents being compelled to stop when there are no children crossing.

Even where the signs are used only during a short period before school opens and after it closes, and at recess, this does not remedy the situation. A certain percentage of motorists, knowing that children are not crossing all the time the sign is up, fail to stop, and this destroys the effectiveness of the whole plan. The children, given a false sense of security by the "stop" sign, fail to exercise the caution they should. Other motorists feel that they have done their duty when they have made the required stop, and then speed up again. This creates a hazard for children who are straggling across, either near the sign or elsewhere.

Motorists generally have come to recognize the "stop" signs held in the hand by school police, and disregard of this sign is almost unknown. If anyone ever fails to stop, other motorists and pedestrians are quick to see that he is apprehended and promptly punished. The safety records in communities which have adopted the school police plan are very close to 100 per cent perfect, and the communities which have tried the plan are all continuing its use.

Our Own Interests

No voter in Crow Wing County should fail to vote for our District Judge, M. E. Ryan, next Tuesday.

There are nine counties in the Fifteenth Judicial District. The THREE southernmost counties—Aitkin, Cass and Crow Wing—have a population of 55,000, according to the 1920 census. The remaining SIX counties to the north have 83,000 population. The northern counties now have TWO of the three district judges. Yet Itasca County now wants the THIRD judge, leaving these three counties and their 55,000 people WITHOUT ANY resident judge. Good sense and a spirit of fairness do not support such a claim.

The loss of this important office to our county would mean the expenditure of litigants' and taxpayers' money which is not now necessary.

Our county has a greater population than any other in the district. Our county seat is the largest city in the district. The district has three judges, and surely we are entitled to one.

The office brings many people to the county. It is an asset we should retain. IT IS UP TO US TO VOTE SOLIDLY FOR JUDGE RYAN, not only because of these things, but particularly because his proven ability, integrity and unquestioned fairness, demand his continuance in office.

Do not be misled by those who disregard the welfare of our county.

NORTHWESTERN-NOTRE DAME TO BE RED-LETTER GAME

FANS GRIPPED IN DEBATE AS TO GAME OUTCOME

BOTH UNDEFEATED AND GATHERING MOMENTUM WITH EACH VICTORY

WILDCATS STILL TO PLAY INDIANA, WISCONSIN, IRISH WITH PENN AND STATE

By GEORGE KIRKSEY
(United Press Staff Correspondent)
Chicago, Nov. 3.—Move the football calendar forward to November 22 and you have what promises to be the red-letter game of the season in this section—that between Northwestern and Notre Dame.

Although nineteen days away, football fans in this section today were gripped in debate about what will happen when these two great eleven meet in Dyche stadium at Northwestern.

Both undefeated and gathering momentum with each victory, it will take a genuine upset to topple either before they meet. Northwestern has two Big Ten games yet to play, against Indiana and Wisconsin, while Notre Dame has to meet Pennsylvania and Drake.

Any mention of Notre Dame arouses the ire of Coach Dick Hanley of Northwestern, but after the Wildcats had trampled Minnesota, 27-6, Saturday at Minneapolis it became everybody's secret that Northwestern is the most dangerous foe the Irish are likely to have until they journey westward to meet Southern California in December.

"Say, lay off that Notre Dame stuff," growls Hanley. "We have two tough games against Indiana and Wisconsin and we are not even thinking about Rockne's team until after we finish our Big Ten schedule. Right now we are pointing for Indiana. For three years Indiana has knocked us off and you can bank on it that the Hoosiers will play their best game of the season against us."

Pug Rentner, Northwestern's powerful halfback and great passer, will be out of the Indiana game as he injured his shoulder in tackling Jack Manders, Minnesota fullback. It was Rentner's passes which resulted in Northwestern's first two touchdowns against Minnesota.

Two new discoveries were made about the Northwestern team in the Minnesota game. One was that the Wildcats have more reserve strength than generally accredited with, and the other that they are not solely a passing team as their other game indicated.

After making two touchdowns on passes, Northwestern rushed the ball 48 yards down the field on straight football to score its third touchdown. Reb Russell, star sophomore halfback, ripped the big Minnesota line to shreds in this drive, the first time any man has gained consistently against it this year.

Capt. Hank Bruder seldom carried the ball against Minnesota, but he proved to be a great blocking and defensive back.

WINNER TO BE BEST MAN IN 126 LB. CLASS

TO ALL INTENTS AND PURPOSES WILL DEFEND HONOR AGAINST BUD TAYLOR

CUBAN HAS BEEN DEFEATED BUT ONCE IN REMARKABLE RING CAREER

By FRANK GETTY
(United Press Sports Editor)

New York, Nov. 3.—The featherweight championship of the world, which has lost prestige since Terry McGovern's day, may be restored as a ring title of real worth as a result of tonight's 10-round bout between Kid Chocolate of Cuba and Fidel LaBarba of California.

While this is not a fight for the championship, the winner will be recognized as the best man in the 126-pound division, and will to all intents and purposes defend the honor against Bud Taylor, Terre Haute, later in the month.

The present so-called champion of the featherweights is a little Hartford, Conn., youngster known as Bat Battalino, who came into possession of the technical title as a result of a bout

with Andre Routis of France. As Routis' manager became Battalino's manager immediately after that fight, some doubt as to Battalino's real worth has existed in the minds of fight fans ever since.

There is little doubt that Chocolate and LaBarba are the class of the division, both game, clean-cut little fighting men who should do something to restore to the fight game generally a bit of its departed prestige.

The Cuban has been defeated but once in a remarkable ring career which has netted him some \$250,000 in the course of two years.

LaBarba, former flyweight champion of the world, retired to study medicine, but decided there was more money in pounding anatomies than in studying them.

Chocolate is a slight favorite to defeat LaBarba.

To the Voters of Crow Wing County:

It has been my policy to conduct a clean campaign and I regret that last minute statements have appeared in the Dispatch which do not present the truth and make this communication necessary. It is very unfair for the further reason that this answer, which I am compelled to write, cannot reach all in the country who read the communication in the Saturday issue.

The inference is made that Mr. W. F. Wieland handled much of the important work for the City during my term as City Attorney. The truth is that Mr. Wieland received one fee from the City for work done by him in the purchase of land for the Pump House Site from Mr. Beare, and that is the only fee paid him by the City to the best of my knowledge and belief. Mr. Wieland had absolutely nothing further to do with the bond issue or legal work relating to the Water System. It is also true that Mr. Wieland did conduct the trial of the Ironton bank cases after Mr. Sullivan was appointed County Attorney. Mr. Wieland is entitled to credit for those cases.

As City Attorney I am not automatically attorney for the School District as stated in a ruling of the Attorney General but I do appreciate the fact that on several occasions the School Board have employed me, and so far as I know, my services have been satisfactory.

Mr. Tighe acted as an approving attorney for the benefit of the bond purchasers, and did not prepare the bond proceedings. Bonds sold by any municipal corporation are always sold either with the opinion of a recognized bond attorney or are later examined by such an expert for the purchaser. Although I have handled many bond issues there is no instance of a failure to approve. I have received many complimentary letters from bond experts relative my work on bond issues.

In regard to damage cases against the City, I can see no reason for attack. The damage case brought by Serverence and Serverence resulted in a verdict for the City, the Morrison case was dismissed, the Schwendeman case was stricken from the calendar, the Undraitis claim was reduced more than \$2,500.00 and the Tift case verdict was reduced 50 per cent by a subsequent order of the District Judge.

Mrs. Fleener brought no case against the City, but brought her case against the Citizens' State Bank.

The cards and letters circulated here in Brainerd where there are union label papers bear such a label. All candidates are required to use 5 papers in the county which have no label, I have carried the label wherever it has been possible.

I recognize the fact that the Brainerd Dispatch has favored Mr. Sullivan, but I assume and believe that they bear no ill will toward me. Although the state law provides for a notice to be served on the County Commissioners in the event of a vacancy in the office of County Attorney, none was given when Mr. Sullivan was appointed. Since then Mr. Wieland has retained a partnership interest with Mr. Sullivan so it is logical that the Dispatch under the direction of Mr. F. W. Wieland should support Mr. Sullivan.

However, it is also true that the people of Brainerd have the same right of choice, and are not required to vote in accord with the Dispatch. Having served you as your employee in the office of City Attorney during the past 12 years, I hope that you will consider the merits as you know them. If elected I pledge you to continue to work honestly and efficiently and to prosecute vigorously in the interest of the county.

Respectfully yours,

D. H. Fullerton

Remember OUR CONGRESSMAN Harold Knutson

When You Go to the Polls, TUESDAY, NOV. 4th

The best Congressman the Sixth Minnesota District ever had. The Most outstanding representative of the people in the entire Northwest. No Congressman at Washington has more influence in the legislative halls or with the administration. He is working for your interests all the time.

Don't forget that "John" Knutson is again running and get the names confused. Mark your ballot for "Harold".

We thank you for your past support and solicit it at this time for Harold solely on the basis of the services he has rendered the people of this Congressional district.

Prepared and will be paid for at the regular rates by the Knutson Campaign Committee, St. Cloud, Minn.

WINNER TO BE BEST MAN IN 126 LB. CLASS

TO ALL INTENTS AND PURPOSES WILL DEFEND HONOR AGAINST BUD TAYLOR

CUBAN HAS BEEN DEFEATED BUT ONCE IN REMARKABLE RING CAREER

By FRANK GETTY (United Press Sports Editor)

New York, Nov. 3.—The featherweight championship of the world, which has lost prestige since Terry McGovern's day, may be restored as a ring title of real worth as a result of tonight's 10-round bout between Kid Chocolate of Cuba and Fidel LaBarba of California.

While this is not a fight for the championship, the winner will be recognized as the best man in the 126-pound division, and will to all intents and purposes defend the honor against Bud Taylor, Terre Haute, later in the month.

The present so-called champion of the featherweights is a little Hartford, Conn., youngster known as Bat Battalino, who came into possession of a technical title as a result of a bout

with Andre Routis of France. As Routis' manager became Battalino's manager immediately after that fight, some doubt as to Battalino's real worth has existed in the minds of fight fans ever since.

There is little doubt that Chocolate and LaBarba are the class of the division, both game, clean-cut little fighting men who should do something to restore to the fight game generally a bit of its departed prestige.

The Cuban has been defeated but once in a remarkable ring career which has netted him some \$250,000 in the course of two years.

LaBarba, former flyweight champion of the world, retired to study medicine, but decided there was more money in pounding anatomies than in studying them.

Chocolate is a slight favorite to defeat LaBarba.

DESPONDENT FATHER KILLS HIMSELF

Zumbrota, Minn., Nov. 3.—(U.P.)—Unable to arrange support for his three small children, Lester Grover, 35, Faribault, shot himself to death here last night.

Grover's wife died three months ago. Unable to arrange for his children's support with their grandparents, Mr. and Mrs. William Weiss of Zumbrota, Grover shot himself with a .32 caliber revolver.

He is survived by his parents and the children.

ARCHBISHOP DOWLING LAPSES INTO COMA

St. Paul, Nov. 3.—(U.P.)—The Most Rev. Austin Dowling, archbishop of the diocese of St. Paul, lapsed into a coma today after a restless night during which he was partially conscious. The highest ranking Roman Catholic prelate in the northwest became

critically ill last Tuesday and since that time physicians have despaired of his recovery.

MINNEAPOLIS TRAFFIC DEATHS REACH TOTAL OF 65 FOR THE YEAR

Minneapolis, Nov. 3.—(U.P.)—Two more

deaths were added to the traffic toll in the Twin Cities over the week end. George Snyder, 48, died of a fractured skull sustained in an accident here yesterday. His death brought the total traffic deaths of the year to 65 for Minneapolis. Lenora Estenson, 23, was killed near Crystal Bay, Lake Minnetonka, when the car in which she was riding overturned after a collision with another machine.

OLSON APPRECIATES ENDORSEMENT

"It is an honor to be endorsed for Governor by Minnesota's Senior Senator and most distinguished citizen,—Henrik Shipstead.

"I know that the great majority of Senator Shipstead's friends are my strongest supporters during this unusual campaign.

"If elected Governor of Minnesota, I promise to keep these assurances, made to the people and to Senator Shipstead, all of which are a part of my platform, and upon which I have been campaigning."

To the Voters of Crow Wing County:

It has been my policy to conduct a clean campaign and I regret that last minute statements have appeared in the Dispatch which do not present the truth and make this communication necessary. It is very unfair for the further reason that this answer, which I am compelled to write, cannot reach all in the country who read the communication in the Saturday issue.

The inference is made that Mr. W. F. Wieland handled much of the important work for the City during my term as City Attorney. The truth is that Mr. Wieland received one fee from the City for work done by him in the purchase of land for the Pump House Site from Mr. Beare, and that is the only fee paid him by the City to the best of my knowledge and belief. Mr. Wieland had absolutely nothing further to do with the bond issue or legal work relating to the Water System. It is also true that Mr. Wieland did conduct the trial of the Ironton bank cases after Mr. Sullivan was appointed County Attorney. Mr. Wieland is entitled to credit for those cases.

As City Attorney I am not automatically attorney for the School District as stated in a ruling of the Attorney General but I do appreciate the fact that on several occasions the School Board have employed me, and so far as I know, my services have been satisfactory.

Mr. Tighe acted as an approving attorney for the benefit of the bond purchasers, and did not prepare the bond proceedings. Bonds sold by any municipal corporation are always sold either with the opinion of a recognized bond attorney or are later examined by such an expert for the purchaser. Although I have handled many bond issues there is no instance of a failure to approve. I have received many complimentary letters from bond experts relative my work on bond issues.

In regard to damage cases against the City, I can see no reason for attack. The damage case brought by Serverence and Serverence resulted in a verdict for the City, the Morrison case was dismissed, the Schwendeman case was stricken from the calendar, the Undraitis claim was reduced more than \$2,500.00 and the Tift case verdict was reduced 50 per cent by a subsequent order of the District Judge.

Mrs. Fleener brought no case against the City, but brought her case against the Citizens' State Bank.

The cards and letters circulated here in Brainerd where there are union label papers bear such a label. All candidates are required to use 5 papers in the county which have no label, I have carried the label wherever it has been possible.

I recognize the fact that the Brainerd Dispatch has favored Mr. Sullivan, but I assume and believe that they bear no ill will toward me. Although the state law provides for a notice to be served on the County Commissioners in the event of a vacancy in the office of County Attorney, none was given when Mr. Sullivan was appointed. Since then Mr. Wieland has retained a partnership interest with Mr. Sullivan so it is logical that the Dispatch under the direction of Mr. F. W. Wieland should support Mr. Sullivan.

However, it is also true that the people of Brainerd have the same right of choice, and are not required to vote in accord with the Dispatch. Having served you as your employee in the office of City Attorney during the past 12 years, I hope that you will consider the merits as you know them. If elected I pledge you to continue to work honestly and efficiently and to prosecute vigorously in the interest of the county.

Respectfully yours,

D. H. Fullerton

favorite to retain his office, but Peterson is known to have made inroads into the incumbent's territory, particularly in the western end of the county.

Two strong vote getters stack up for the sheriff's office. The one is Charles W. Oberg, chief deputy of Sheriff Claus A. The other is Mayor Frank E. Little of Brainerd. The two ran a close race in the primary. Each is given an even chance to win.

City Attorney D. H. Fullerton and County Attorney Arthur J. Sullivan will stage a race which all the county looks forward eagerly for the result. It has developed into the most important battle of the county.

Fred G. Mayberry, Ironton, and Harold T. Molstad, Brainerd, line up for superintendent of schools. Molstad will receive a large vote in the city as shown by the heavy poll he drew in the primary. Mayberry's heavy following will come from the Cuyuna Range towns. Both candidates have been working hard for the votes of the country precincts.

Two districts will vote for commissioners. In the second E. J. Houge is opposing A. Frank Anderson, incumbent, and in the fourth M. E. DeRosier is opposing Frank J. Lowey.

G. W. Chadbourne is a candidate for court commissioner. Those voting in the office must write in their own candidate and place an X after it.

JONATHAN REIGNS DURING APPLE WEEK

Bright Red Fruit Comes From Washington to Make Celebration Successful

Observance of National Apple Week in many homes of this community has been made possible because of the abundance on the local market of fine, red Jonathans, grown in the famous orchards of the state of Washington.

In this age of specialization, the tendency is to concentrate on the production of fruits, vegetables or other products in locations where they attain their highest perfection. The rich lava-dust soil of the valleys and hill-sides that lie between the Cascade Mountains and the Columbia River in eastern Washington, combined with a climate particularly favorable to apple culture has made it possible for this district to produce more than one-fourth of the entire apple crop of the nation.

Washington apples do not "grow"—they are grown. With the orchardists of that region fruit is just as much of a "crop" as corn is in Iowa or cotton in Alabama. Orchards are planted with care and after scientific tests of soil and growing conditions. They are cultivated systematically, sprayed and pruned, and the excess fruit on the trees is thinned out so that the remainder may attain good size and satisfactory color.

Harvesting, packing and shipping are all conducted according to the most modern methods, so that the fruit reaches the markets not only of

America but of the world, in the best of condition. More than 30,000 carloads of apples will be shipped this season from the state of Washington and this fruit will be eaten in practically every civilized country.

When it is considered that the apple crop of America is valued at more than \$100,000,000, it will be seen that it has an important commercial and economic standing. And when to this is added the romance of the apple as well as its healthfulness and the zest it gives to living, the appropriateness of observing National Apple Week becomes apparent.

CITY STANDS GOOD CHANCE OF GETTING REGIONAL TOURNEY

THREE MAJOR MEETS NOW ASSURED FOR BRAINERD HIGH, CAGE, DECLAM, MUSICAL

EIGHT TEAMS TO BATTLE HERE MARCH 12, 13, AND 14 FOR FLOOR SUPREMACY

Recognizing Brainerd as the logical place for the holding of the district basketball tournament, superintendents of the district at a meeting at the Vendome hotel, Minneapolis, Saturday afternoon voted to eliminate sub district tournaments at Crosby and Staples as previously planned and hold all major games at the Brainerd high school.

Following this action the superintendents voted to conduct a Class B tournament at Staples previous to the district tournament to give smaller high school teams a chance to decide the two strongest quints for competition in the district tournament here with the major schools, Aitkin, Crosby-Inton, Little Falls, Staples, Wadena and Brainerd.

In the Class B tournament will be Backus, Pine River, Pequot, Motley, New York Mills, Menasha and Topoka. The winner and runner up will come to Brainerd to form an eight team tournament March 12, 13 and 14 at the large Brainerd high school gymnasium, ideal for the holding of such a tournament.

W. C. Cobb, superintendent of the Brainerd schools, advanced Brainerd's invitation to the superintendents at the Saturday meet and gave promise that such an arrangement would meet with more satisfactory returns in the way of financial support and would prove more popular to the fans of the district and would work to the advantage of every school in the district. Superintendents Perkins of C-I and Atwood of Staples acceded to the change and the resolution was adopted without one dissenting vote.

Coincident with this announcement comes the encouraging report that Brainerd also stands a fair chance at securing the regional basketball tournament. Final action in this respect will be taken within the week.

Two other important tournaments are slated for the Brainerd high school. These are the district declamatory meet which will be held in conjunction with the basketball tournament, the schools to compete during the day while the cage teams will battle in the evening, and the regional musical tournament to take place in May. The musical tournament will include contests by glee clubs, bands, instrumental and vocal.

In the district cage tournament four teams will be eliminated from competition the first day, two the second day and the third evening will be devoted to the finals.

Superintendents present for the meeting were: Murray of Aitkin, Perkins of Crosby, Van Dusen of Little Falls, Theobald of Backus, Hall of Pequot, Bailey of Motley, Atwood of Staples, Swartz of Wadena, Miller of Menasha, Johnson of New York Mills, Ost of Sebeka and Cobb of Brainerd.

MUNICIPAL BAND TO BEGIN REHEARSALS

Thirty Musicians Receive Call for Winter Practice for Summer Concert Season

Henry Krause, secretary of the Brainerd Municipal band, today issued a call to the 30 members of the band to report for the first practice of the winter rehearsal season here at the farmer's room in court house next Wednesday evening.

The band will follow its usual custom of a regular weekly rehearsal every Wednesday night during the winter season in preparation for the summer concert season which begins each year on the first Wednesday evening in June. The band, during the summer, alternates weekly concerts between Lum Park and Gregory Park.

The Municipal band, now under the direction of Professor William Knutson of Crosby, has been organized for a number of years and boasts an enrollment including many veteran musicians.

Meyer-Noakes Wedding Celebrated on Saturday

Miss Ruby Noakes, daughter of Mr. and Mrs. S. Noakes, and Edward Meyer were married Saturday afternoon at 5 o'clock at the parsonage of the Presbyterian church, Rev. A. G. Patterson performing the ceremony.

The bride's gown was a model of rose tan georgette and she carried a bouquet of pink carnations. The groom wore dark blue.

They were attended by Mr. and Mrs. Harold Betts.

Following the wedding ceremony a wedding supper was served at 6 o'clock at the home of the groom's mother, Mrs. Maggie Meyer, 301 South Fourth street. The evening was spent at the home of the bride and groom in West Brainerd with 75 of their friends and relatives. Five hundred and dancing formed the entertainment for the evening with a lunch served at midnight.

20 CHURCHES TO BE REPRESENTED

Northwestern Association of Northern Baptist Convention Meets at Long Prairie

Representatives of the 20 churches constituting the Northwestern Association of the Northern Baptist Convention, will gather in the First Baptist church, Long Prairie, on Friday (Nov. 7), when the denominational missionary program at home and abroad will be presented by Rev. Arthur Hoag, promotional director of the Minnesota Baptist convention.

Mr. Hoag will call special attention to the fact that while Northern Baptists, in common with other denominations, are confronted with the difficulty of raising funds for the maintenance of their missionary enterprises in the face of a nation-wide industrial depression, Baptist contributions have so far maintained a level close to that for the same period last year, when Baptist missionary giving touched the highest point in seven years.

This year Northern Baptists are facing the necessity of raising \$5,100,000 with which to maintain their work in ten foreign fields and many hundreds of home stations, and including the churches, community houses, schools and colleges, staffed by 12,000 or more missionaries, teachers and native workers. Last year the denomination raised \$4,600,000 for its unified budget, and it is hoped that this year the \$500,000 additional required to meet the current need will be forthcoming, despite the national financial slump.

One of the feature speakers on the program will be Miss Maza Evans, who is a Baptist mission worker at Gologhat, Assam, and Rev. J. A. Cooper, formerly president of Sioux Falls College, Sioux Falls, S. D., and now a field worker for the Board of Missionary Cooperation.

George Tracy of Brainerd will preside and several from the city will be present at the sessions.

Junior in High School Protects Employer's Money at Pequot From Bold Intruder

STRUCK TWICE IN FACE
Miss Elsie Knutson Refuses to Let Stranger Make Own Change From Till

Miss Elsie Knutson, 17 year old junior at the Pequot high school, was back to school today nursing a bruised face for protecting her employer's money from a bold customer who visited the A. S. Rasmussen drug store at Pequot Saturday night.

When a stranger came in the drug store about 6 p. m. and asked the girl, who clerks in the store after school and on Saturday, to change a \$20 bill Miss Knutson became suspicious. She inspected the bill and thought it counterfeit. Angered, the young man struck Miss Knutson in the face with his fist.

"If you won't change this bill I will," the man said moving towards the till. Miss Knutson reached the till before he did, standing in front of it to guard it.

Her face sore from the blow, the girl pluckily took her stand. She was determined the intruder should not open the till which contained \$50.

When she refused to step aside the man struck her again in the face. Miss Knutson clung to the till until the man left without getting any money.

Sheriff Claus Theorin made a search of the community throughout the evening but was unsuccessful in finding him.

The man is described by Miss Knutson as being about 25 years old. He wore a brown hat, a black sweater, was dark complexioned and did not wear a coat. He drove away in a model T Ford roadster.

CITY STANDS GOOD CHANCE OF GETTING REGIONAL TOURNEY

THREE MAJOR MEETS NOW ASSURED FOR BRAINERD HIGH, CAGE, DECLAM, MUSICAL

EIGHT TEAMS TO BATTLE HERE MARCH 12, 13, AND 14 FOR FLOOR SUPREMACY

Recognizing Brainerd as the logical place for the holding of the district basketball tournament, superintendents of the district at a meeting at the Vendome hotel, Minneapolis, Saturday afternoon voted to eliminate sub district tournaments at Crosby and Staples as previously planned and hold all major games at the Brainerd high school.

Following this action the superintendents voted to conduct a Class B tournament at Staples previous to the district tournament to give smaller high school teams a chance to decide the two strongest quintets for competition in the district tournament here with the major schools, Aitkin, Crosby-Ironton, Little Falls, Staples, Wadena and Brainerd.

In the Class B tournament will be Backus, Pine River, Pequot, Motley, New York Mills, Menasha and Popple. The winner and runner up will come to Brainerd to form an eight team tournament March 12, 13 and 14 at the large Brainerd high school gymnasium, ideal for the holding of such a tournament.

BITTER 1930 ELECTION CAMPAIGN NEARING CLOSE

CANDIDATES ARE ISSUING THEIR
FINAL APPEALS TO THE
VOTERS OF STATE

IN 47 STATES, 431 MEMBERS OF
HOUSE, 34 SENATORS TO BE
ELECTED

St. Paul, Minn., Nov. 3.—(UP)—Minnesota's bitter 1930 election campaign drew to a close today as candidates issued final appeals to voters before retiring to await the result of tomorrow's vote.

The pace that has taken gubernatorial and senatorial candidates through half a dozen addresses a day during the past two weeks was slowed today and in most cases only a single speech was planned by candidates.

In the senatorial race, Senator Thos. D. Schall, incumbent republican, issued a final statement thanking his supporters and urging party regularity. His supporters predicted that he would be returned winner by a popular vote approximating his primary lead over Governor Theodore Christianson.

Einar Hoidal, democratic candidate, was to make a radio speech today as his final campaign gesture. His backers estimated that he would win by a plurality of 75,000 to 100,000.

In betting circles, odds on the election have dropped to even money, it was said.

Ernest Lundeen, farmer-labor senatorial candidate, planned to end his campaign with a radio address. Several forecasts that the close race between Schall and Hoidal would return Lundeen the winner were made.

Ray P. Chase, republican gubernatorial nominee, will speak at a rally in Minneapolis tonight but was to spend a quiet day.

Floyd B. Olson, his farmer-labor op-

ponent, also had a final meeting in Minneapolis scheduled.

E. D. McMillan, chairman of the republican state central committee, issued a final statement today asking voters to select republican office holders. He predicted victory for all candidates.

Senator Schall's headquarters made public a letter from George M. Harrison, grand president of the Brotherhood of Railway Clerks, which expressed "best wishes for success at the coming election and to commend you

for your long and honorable record in protecting the peoples' interest."

By PAUL R. MAILLON
(United Press Staff Correspondent)

Washington, Nov. 1.—The partisan cheers are dying away and the final word is being mimeographed or spoken at headquarters of candidates in preparation for the election tomorrow of a congress of the United States. Upwards of 20,000,000 prospective voters have but a few hours remaining to make up their minds whether the republican administration or the democrats should control law making of the country for the next two years. By sundown tomorrow their collective choice will be heard through the ballot boxes in 47 states where 431 members of the house and 34 senators as well as 31 states governors, are being elected.

The democrats closed the campaign as they opened it—with high hopes and a hammering at the conduct of the administration during the business crisis. Through their efficient publicity bureau here a statement was issued by Senator Walter F. George, democrat, Georgia, charging the house republican leadership with thwarting the only real effort to solve unemployment.

George contended three administration leaders killed the Wagner unemployment bills sponsored by the democrats at the last session of congress.

The same trend will be followed tonight in a national radio broadcast by Jonett Shouse, chairman of the executive committee.

On the republican side a member of the Hoover cabinet came to the support of the republican senatorial candidate in Illinois, Mrs. Ruth Hanna McCormick.

In a statement issued through the republican senatorial committee, Secretary of Commerce Lamont urged the voters to elect men and women who will support the Hoover policies.

Between these last missiles of the two parties came a mimeographed warning from the dry organizations here, headed by the Anti-Saloon League. Their statement urged the voters to "support in the elections those candidates who stand for maintenance and effective administration

of the prohibition law and who will respect decisions effected by constitutional means at the ballot box."

Their warning was directed against proposals to modify existing constitutional bans on what they called "habit-forming poison."

"Any modification by writing into law a legal fiction giving a special privilege to the manufacturers of beer and wine to monopolize trade in intoxicants would impugn the sincerity of the constitution and strike at the integrity of government," the dregs concluded.

Their remarks obviously were referring to reports the past two weeks suggesting the Wickersham commission shortly would report in favor of 44 cent beer. These rumors were recurrent Sunday night but met the same wall of official silence at the White House and the headquarters of the Wickersham commission. It is pointed out that the commission will meet here Wednesday, the day after election, to formulate its report on prohibition.

Brainerd, Minn., Nov. 1st, 1930.
Brainerd Dispatch,
Brainerd, Minn.

Gentlemen:
I am writing this letter, not for political purposes, but, because as attorney for H. L. Stearns, who is one of the accused (I will not say victim) of our County Attorney's graft investigation, and I feel that my client has not been treated fairly by either the County Attorney, or by you.

I certainly believe that if the County Attorney has any evidence that a crime has been committed it is his duty to arrest and prosecute the guilty person, but I do not believe that any one should be arrested without at least some evidence of his guilt and if arrested he should be tried in the courts and not in the papers.

In the Stearns matter, Stearns was first arrested, on two warrants charging fraudulent receiving of county money for road work, not performed, and on one charge of forgery; he was arrested on a Saturday afternoon, and when I went to see him I was informed by the Sheriff that the County Attorney had left town and that Stearns could not be arraigned or released on bail before Monday. I took the matter up with the Judge and he ordered the Sheriff to bring Stearns into court to be arraigned and for the purpose of fixing bail. When the Sheriff did so he informed the court that the County Attorney had asked him to request the Judge to postpone the arraignment until Monday. The court refused to do this and before the court had finished the matter of fixing the amount of bail Mr. Sullivan appeared in person.

Before Stearns had been able to get a copy of the warrants against him and before the court had released him, your paper was on the Streets with a full account of his arrest and the charges against him. The fact that your paper stated that he would be arraigned Monday, instead of that he was arraigned Saturday, convinced me that you had been furnished your copy in advance of court proceedings and that the County Attorney fully intended to keep Stearns over Sunday in jail, though he knew he could furnish bail.

After looking up the public records in regard to the charges of fraudulently receiving money for work not performed, I became convinced that the money was received for team work and that there was no evidence of Stearns having received pay for road work when he was assessing and I went to Mr. Sullivan and showed him that this was true and requested him to dismiss the charges of fraud as there was no evidence of same. Instead of doing this he secured two more warrants for practically the same charges, though for different dates, evidently believing he had a better chance of holding Stearns on one of these.

A hearing was had on one of these last charges and Stearns was released, the Judge saying from the bench that there was no evidence of crime, but only a suspicion. Mr. Sullivan dismissed the other three fraud cases; in doing so he made a talk and gave some purported reasons for dismissal. Your paper published all of these remarks in full but did not publish any of my remarks made in reply.

In the matter of Stearns' hearing on the forgery charge, after the hearing and before the Judge had given his decision, your paper published all of the evidence introduced by the State, but did not publish any evidence introduced by defendant, which I consider, was very unfair to Stearns.

Yours truly,
W. W. BANE.

I have noticed several articles in your paper for Mr. Sullivan and the money he has saved.

I have seen nothing proved. I understand he dismissed five of the seven charges he made in the so called graft investigation.

I have not heard of any money he got back for the county. If he was in the office when all this happened why didn't he do something before it got so bad and not leave until just election time and then tell us what he is going to do.

You say Mr. Fullerton has done his work well as city attorney and is one who was raised here and is a local man. I can't see why he should not be elected. Why not elect a taxpayer of Crow Wing county.

THOMAS TEMPLETON.

Mr. Editor:

During the time that I have served on the city council I have had the pleasure of doing considerable work with Mr. Fullerton.

His legal opinions given the city council if questioned have always been upheld by the attorney general.

He has at all times rendered his services promptly and courteously. I firmly believe that he deserves being placed in the office as county attorney at this coming election.

Yours truly,
V. F. ANDERSON.

Editor,
Brainerd Daily Dispatch,
Brainerd, Minn.

In reply to the letter of A. D. Polk appearing in your Saturday issue under Other Peoples Opinions, wish to state that I have tried in every way to avoid putting out any literature or statements in the press which were in any way misleading to the voters and these were put out in sufficient time to permit of criticism, if any, and did not adopt last minute methods, when no replies could be made.

Admitting that my opponent has been in the office for 25 years, it is nevertheless the fact that Registers of Deeds in other counties of the state have taken office with not as much experience as I have had and these offices are conducted as well if not better than the Crow Wing County office.

As for the Tract Index, if this is such a Bug a Boo, as my opponent states in his last minute circular, why has Hennepin County adopted one and is about to spend over one hundred thousand dollars to secure it? Or why is it that outside of Crow Wing county and half dozen others have and maintain such Tract Indexes?

Isn't it reasonable to believe that the present Register is interested in having the taxpayers of the county subject to the privately owned abstract records? Isn't it also rather inconsistent in Mr. Jenkins stating that he will put one in if the Commissioners ask it? The evident reason is that he could then demand more pay, in addition to the \$1500.00 now paid his deputy, and which was paid him when serving as such Deputy Register.

Very respectfully,
Carney O. Peterson.

"JUDY" By Winifred Van Duzer

JUDITH ARCHER, young school teacher, is aboard ship on a well-earned vacation. Her mother, whom she supports, meets a Mr. Tennant. Judy, realizing she is unattractive, is lonely. Her prejudice against men weakens when she receives attention from Kit Camp, ship's radio operator. Judy does long to be friendly, pretty and sociable like other girls. She is told by a girl friend that if she will remove her glasses and arrange her hair in modern mode, she will be pretty. Kit and Judy have a discussion. Later, when the ship docks at Halifax, Judy goes touring alone. Gazing into a pool in the Public Gardens, she sees a face beside hers and looks up into the dark, smiling eyes of a man. Shortly after he disappears behind some shrubbery. Judy hears quarreling and shooting. The man reappears and enters a hotel close by. Judy investigates.

CHAPTER XII.

JUDY was still shaking a little but her chin was out as she started back, not as she had come but along the street. She had gone only a little way when she found another entrance, one which opened upon the path between the thick walls of shrubs. Though this lane and this gate the dark-eyed youth stroled so lightly, since there was no other way he could have got to the street.

He must have heard the shots then; he must have seen whatever happened. It was possible—why, it was possible he had taken part in it! That he had fired the shots himself!

Judy hurried through the lane. She peered and pried, thrusting branches aside, going carefully over the ground. She heard nothing, saw nothing—no mark, no trampled grass, no broken boughs. Toward the end of the lane where it turned sharply just before reaching the fountain was a bench and a man lounged there. He was slumped over with his head against the iron at the back of the bench, his face very red in sleep.

Judy stopped and regarded him, puzzled over some incongruity in his appearance. His clothes were shabby and soiled—machine oil would have made those stains—and a little knitted cap, such as workmen around this part of the world wore, was stuck on his head. A sailor on leave? But his hands did not look as if they belonged to a sailor. Strong, wiry hands, long-fingered, with the knuckles skinned and one half-turned palm showing fiery blisters. A sailor's palm would be calloused—long hardened beyond the possibility of blisters.

This was none of Judy's affair, however. She had done her duty—satisfied her curiosity as well. Perhaps it was a mere dream, the snarling voices, the shots, even the dark-eyed young fellow walking away so debonairly.

Only she knew it was not a dream. Adventure—the first she ever had met—oh, and it led nowhere! Dreams were better; you could make them take you wherever you wished to go.

She was on the boat deck in time to see the crowd come back. Betsy Rowe still hanging to the arm of the dashing third officer; Ma all fluttery with her helpless look led up the plank by the dazzled Mr. Tennant. No Kit Camp. Judy was lying on the bed, hands against her eyes when Ma Archer came in, demanded in quick concern if she were all right.

"Have a nice day, lamb? Betsy all right? Is it a beautiful vacation?"

"Course, Ma—why not? Doing a little plain and fancy thinking about Halifax is all and I'll take it kindly if you'll not so much as speak."

"But it's time to dress, Judy. Do

let me help you just this once—" Judy was preoccupied; Judy was trying to puzzle out the mystery of the Public Gardens. And Ma Archer took advantage of her absent-mindedness. Ma Archer perceived a flock of turquoise crepe and lace over Judy's head and a clever little pair of embroidered turquoise sl

BITTER 1930 ELECTION CAMPAIGN NEARING CLOSE

CANDIDATES ARE ISSUING THEIR
FINAL APPEALS TO THE
VOTERS OF STATE

IN 47 STATES, 431 MEMBERS OF
HOUSE, 34 SENATORS TO BE
ELECTED

St. Paul, Minn., Nov. 3.—(UP)—Minnesota's bitter 1930 election campaign drew to a close today as candidates issued final appeals to voters before retiring to await the result of tomorrow's vote.

The pace that has taken gubernatorial and senatorial candidates through half a dozen addresses a day during the past two weeks was slowed today and in most cases only a single speech was planned by candidates.

In the senatorial race, Senator Thos. D. Schall, incumbent republican, issued a final statement thanking his supporters and urging party regularity. His supporters predicted that he would be returned winner by a popular vote over Governor Theodore Christianson.

Einar Hoidal, democratic candidate, was to make a radio speech today as his final campaign gesture. His backers estimated that he would win by a plurality of 75,000 to 100,000.

In betting circles, odds on the election have dropped to even money, it was said.

Ernest Lundeen, farmer-labor senatorial candidate, planned to end his campaign with a radio address. Several forecasts that the close race between Schall and Hoidal would return Lundeen the winner were made.

Ray P. Chase, republican gubernatorial nominee, will speak at a rally in Minneapolis tonight but was to spend a quiet day.

Floyd B. Olson, his farmer-labor op-

ponent, also had a final meeting in Minneapolis scheduled.

E. D. McMillan, chairman of the republican state central committee, issued a final statement today asking voters to select republican office holders. He predicted victory for all candidates.

Senator Schall's headquarters made public a letter from George M. Harrison, grand president of the Brotherhood of Railway Clerks, which expressed "best wishes for success at the coming election and to commend you

for your long and honorable record in protecting the peoples' interest."

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, Nov. 1.—The partisan cheers are dying away and the final word is being mimeographed or spoken at headquarters of candidates in preparation for the election tomorrow of a congress of the United States.

Upwards of 20,000,000 prospective voters have but a few hours remaining to make up their minds whether the republican administration or the democrats should control law making of the country for the next two years.

By sundown tomorrow their collective choice will be heard through the ballot boxes in 47 states where 431 members of the house and 34 senators as well as 31 states governors, are being elected.

The democrats closed the campaign as they opened it—with high hopes and a hammering at the conduct of the administration during the business crisis. Through their efficient publicity bureau here a statement was issued by Senator Walter F. George, democrat, Georgia, charging the house republican leadership with thwarting the only real effort to solve unemployment.

George contended three administration leaders killed the Wagner unemployment bills sponsored by the democrats at the last session of congress. The same trend will be followed tonight in a national radio broadcast by J. P. Shouse, chairman of the executive committee.

On the republican side a member of the Hoover cabinet came to the support of the republican senatorial candidate in Illinois, Mrs. Ruth Hanna McCormick.

In a statement issued through the republican senatorial committee, Secretary of Commerce Lamont urged the voters to elect men and women who will support the Hoover policies.

Between these last missiles of the two parties came a mimeographed warning from the dry organizations here headed by the Anti-Saloon League. Their statement urged the voters to "support in the elections those candidates who stand for maintenance and effective administration

of the prohibition law and who will respect decisions effected by constitutional means at the ballot box."

Their warning was directed against proposals to modify existing constitutional bans on what they called "habit-forming poison."

"Any modification by writing into law a legal fiction giving a special privilege to the manufacturers of beer and wine to monopolize trade in intoxicants would impugn the sincerity of the constitution and strike at the integrity of government," the dregs concluded.

Their remarks obviously were referring to reports the past two weeks suggesting the Wickersham commission shortly would report in favor of a 4 per cent beer. These rumors were recurrent Sunday night but met the same wall of official silence at the White House and the headquarters of the Wickersham commission. It is pointed out that the commission will meet here Wednesday, the day after election, to formulate its report on prohibition.

Gentlemen:
I am writing this letter, not for political purposes, but, because as attorney for H. L. Stearns, who is one of the accused (I will not say victim) of our County Attorney's graft investigation, and I feel that my client has not been treated fairly by either the County Attorney, or by you.

I certainly believe that if the County Attorney has any evidence that a crime has been committed it is his duty to arrest and prosecute the guilty person, but, I do not believe that any one should be arrested without at least some evidence of his guilt and if arrested he should be tried in the courts and not in the papers.

In the Stearns matter, Stearns was first arrested, on two warrants charging fraudulent receiving of county money for road work, not performed, and on one charge of forgery; he was arrested on a Saturday afternoon, and when I went to see him I was informed by the Sheriff that the County Attorney had left town and that Stearns could not be arraigned or released on bail before Monday. I took the matter up with the Judge and he ordered the Sheriff to bring Stearns into court to be arraigned and for the purpose of fixing bail. When the Sheriff did this he informed the court that the County Attorney had asked him to request the Judge to postpone the arraignment until Monday. The court refused to do this and before the court had finished the matter of fixing the amount of bail Mr. Sullivan appeared in person.

Before Stearns had been able to get a copy of the warrants against him, and before the court had released him, your paper was on the Streets with a full account of his arrest and the charges against him. The fact that your paper stated that he would be arraigned Monday, instead of that he was arraigned Saturday, convinced me that you had been furnished your copy in advance of court proceedings and that the County Attorney fully intended to keep Stearns over Sunday in jail, though he knew he could furnish bail.

After looking up the public records in regard to the charges of fraudulently receiving money for work not performed, I became convinced that the money was received for team work and that there was no evidence of Stearns having received pay for road work when he was assessing and I went to Mr. Sullivan and showed him that this was true and requested him to dismiss the charges of fraud as there was no evidence of same. Instead of doing this he secured two more warrants for practically the same charges, though for different dates, evidently believing he had a better chance of holding Stearns on one of these.

A hearing was had on one of these last charges and Stearns was released. The Judge saying from the bench that there was no evidence of crime, but only a suspicion. Mr. Sullivan dismissed the other three fraud cases; in doing so he made a talk and gave some purported reasons for dismissal. Your paper published all of these remarks in full but did not publish any of my remarks made in reply.

In the matter of Stearns' hearing on the forgery charge, after the hearing and before the Judge had given his decision, your paper published all of the evidence introduced by the State, but did not publish any evidence introduced by defendant, which I consider, was very unfair to Stearns.

Yours truly,
W. W. BANE.

Editor Brainerd Dispatch:

I have noticed several articles in your paper for Mr. Sullivan and the money he has saved.

I have seen nothing proved. I understand he dismissed five of the seven charges he made in the so called graft investigation.

I have not heard of any money he got back for the county. If he was in the office when all this happened why didn't he do something before it got so bad and not leave until just election time and then tell us what he is going to do.

You say Mr. Fullerton has done his work well as city attorney and is one who was raised here and is a local man. I can't see why he should not be elected. Why not elect a taxpayer of Crow Wing county.

Yours truly,

Dear Sir:
It has been rumored that in the event of Mayor Little's election to the office of Sheriff of Crow Wing county, that my name as a possible deputy, has been mentioned.
